Management's Discussion & Analysis

For the Second Quarter Ended June 30, 2018 and 2017

DATED: AUGUST 28, 2018

### MANAGEMENT'S DISCUSSION & ANALYSIS IN CONNECTION WITH THE FINANCIAL STATEMENTS OF CLEAR BLUE TECHNOLOGIES INTERNATIONAL INC. FOR THE SECOND QUARTER ENDED JUNE 30, 2018 AND 2017

This management's discussion and analysis of the results of operations and financial condition (the "MD&A") of Clear Blue Technologies International Inc. ("Clear Blue" or "Company") should be read in conjunction with the interim financial statements of Clear Blue and the related notes thereto for the interim period ended June 30, 2018. This MD&A is presented as of August 28, 2018 and is current to that date unless otherwise stated. The financial information presented in this MD&A is derived from Clear Blue's unaudited interim financial statements for the interim period ended June 30, 2018, prepared in accordance with IFRS.

### **Caution Regarding Forward Looking Information**

This management's discussion and analysis contains certain "forward-looking information" within the meaning of applicable Canadian securities legislation and may also contain statements that may constitute "forward-looking statements" within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Such forward-looking information and forward-looking statements are not representative of historical facts or information or current condition, but instead represent only Clear Blue's beliefs regarding future events, plans or objectives, many of which, by their nature, are inherently uncertain and outside of Clear Blue's control. Generally, such forward-looking information or forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or may contain statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "will continue", "will occur" or "will be achieved". By identifying such information and statements in this manner, Clear Blue is alerting the reader that such information and statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Clear Blue to be materially different from those expressed or implied by such information and statements.

An investment in securities of Clear Blue is speculative and subject to several risks including, without limitation, the risks discussed under the heading "Risk Factors" in Clear Blue's listing application dated July 12, 2018. Although Clear Blue has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information and forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended.

In connection with the forward-looking information and forward-looking statements contained in this management's discussion and analysis, Clear Blue has made certain assumptions. Although Clear Blue believes that the assumptions and factors used in preparing, and the expectations contained in, the forward-looking information and statements are reasonable, undue reliance should not be placed on such information and statements, and no assurance or guarantee can be given that such forward-looking information and statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information and statements. The forward-looking information and forward-looking statements contained in this management's discussion and analysis are made as of the date of this management's discussion and analysis, and Clear Blue does not undertake to update any forward-looking information and/or forward-looking statements that are contained or referenced herein, except in accordance with applicable securities laws. All subsequent written and oral forward-looking information and statements attributable to Clear Blue or persons acting on its behalf are expressly qualified in their entirety by this notice.

### Overview

Clear Blue develops and sells a "Smart Off-Grid" power solutions to power, control, monitor, manage, and proactively service solar and hybrid-powered systems such as street lights, security systems, telecommunications systems, emergency power, and Internet of Things ("IoT") devices. Under the Illumient brand, Clear Blue also sells solar and wind-powered outdoor lighting systems.

Because of the seasonal nature of the Company's revenue, a trailing four-quarter ("TFQ") analysis provides insight in the growth trajectory and progress of the Company. The table below presents the Company's trailing four-quarter financial results for the periods ending June 30, 2018 and June 30, 2017, respectively.

	Trailing 4 Quarters Ended Jun 30, 2018	8 6	% Change
Revenue	\$ 3,934,480	\$ 1,345,683	192%
Cost of Sales	3,369,763	1,186,114	184%
Gross Margin	564,717	159,569	254%

Net Loss and Comprehensive Loss	\$ (3,621,956)	\$ (2,729,588)	33%

June 30, 2018 TFQ achieved 192% revenue growth over June 30, 2017 TFQ with an increase in gross margin from 12% to 14%. The growth in expenses is a result of expanding sales activity into the new Telecom vertical, the addition of sales and technical resources focused on the Telecom Infra Project – founded by Facebook, and expansion to greater international markets, most notably Middle East and North Africa.

### Revenue

Clear Blue generates product revenue through the sale of its core smart off-grid controllers and systems including several optional accessories, electrical subsystems (including batteries, solar panels, wind turbines, cabling and lights) or full Illumient mechanical system solutions (including pole, lighting arms, solar panel arm, external battery/electronic cabinets). In addition, the Company generates recurring revenue through the provision of its ongoing remote (cloud-based) Illumience power management services. Revenue received at the time of sale related to these services is deferred and recognized ratably over the contract term.

Clear Blue's revenue by category, for the three months ended June 30, 2018 and 2017, was:

Revenue by Category	Three Months Ended Jun 30, 2018	Three Months Ended Jun 30, 2017
Product Revenue		
Smart off-grid controllers and systems	\$ 935,600	\$ 53,084
Illumient smart off-grid lighting	734,629	76,583
Recurring Revenue – Illumience	27,467	17,467
Total Revenue	\$ 1,697,696	\$ 147,134
Number of units under management	3,247	1,363
Average Contract Size	\$79,544	\$14,566

Clear Blue's revenue distribution by geography is:

Revenue by Geography	Three Months I Jun 30, 201		Three Months I Jun 30, 201	
Canada	\$522,256	31%	\$62,754	43%
USA	239,349	14%	10,934	7%
Africa	928,915	55%	73,446	50%
Other	7,176	0%		-%
Total Revenue	\$1,697,696		\$147,134	

Clear Blue's revenue distribution by industry vertical is:

Revenue by Vertical	Three Months I Jun 30, 201		Three Months I Jun 30, 201	
Lighting	\$1,581,822	93%	\$104,764	71%
Telecommunications	114,748	7%	37,393	26%
Security/IoT/Other	1,126	0%	4,977	3%
Total Revenue	\$1,697,696		\$147,134	

Revenue increased \$1,550,562, a percentage increase of 1054% for the three months ended June 30, 2018 compared year-over-year quarter to 2017 as the Company continues to expand its market and customer base, particularly through increased sales in the telecommunications vertical. The Company's largest order in its history was secured in the first quarter of 2018 and the majority of the order shipped to the customer

in this second quarter. This order also strengthened the Company's presence in the African solar off-grid lighting marketplace.

The Company expects to continue to see variable quarterly revenue due to the variance in size and timing of new contracts as markets and new customer development continues.

### **Cost of Sales and Gross Margin**

Gross margins vary depending on the configuration of products sold, order size and location of sale. Product sales typically generate lower gross margins than recurring revenue. The cost of sales is greatly impacted by working capital, which increases the efficiency of supply chain management, procurement and inventory management. The Company has had limited working capital available, restricting its ability to manage input costs through supply chain management and higher volume purchasing, which has resulted in lower gross margins. The Company's gross margin increased in June 30, 2018 TFQ compared to June 30, 2017 TFQ. During the second quarter of 2018, the Company has improved its gross margin percentage from 10% to 17%.

Notes to the Condensed Interim Financial Statements For the six months ended June 30, 2018 and 2017 (Unaudited) (Presented in Canadian dollars)

#### 1. Nature of operations

Clear Blue Technologies Inc. (the "Company") was incorporated under the laws of the Province of Ontario on September 8, 2011. The Company's shareholders are individuals, private corporations and partnerships. The Company's principal business activity is the development and selling of integrated smart off-grid power solutions including ongoing remote power management services. The Company's head office is located at 30 Lesmill Road, Unit #7, Toronto, Ontario, Canada, M3B 2T6.

### 2. Basis of Presentation

### **Statement of Compliance**

These condensed interim financial statements were prepared following the same accounting policies and methods of computation as the audited annual financial statements for the year ended December 31, 2017. They were prepared in accordance with International Accounting Standard (IAS) 34, "Interim Financial Reporting" as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain financial information and disclosures normally included in the annual financial statements prepared in accordance with International Financial Reporting Standards (IFRS) has been omitted or condensed. The disclosure provided herein is incremental to the disclosure included in the audited annual financial statements.

The condensed interim financial statements should be read in conjunction with the annual audited financial statements for the year ended December 31, 2017.

The financial statements were approved for issuance by the Company's Board of Directors on August 28, 2018.

### **Basis of Measurement**

These financial statements have been prepared on a historical cost basis, except for certain financial instruments that are measured at fair value as described in the significant accounting policies.

### **Functional and presentation currency**

These financial statements are presented in Canadian dollars, which is the Company's functional and presentation currency.

Notes to the Condensed Interim Financial Statements For the six months ended June 30, 2018 and 2017 (Unaudited) (Presented in Canadian dollars)

### 3. Significant accounting policies

### Newly adopted accounting standard

IFRS 9, Financial Instruments, ("IFRS 9") was issued by the IASB as a complete standard in July 2014, including the requirements previously issued related to the classification and measurement of financial assets and liabilities, with additional amendments to introduce a new expected loss impairment model for financial assets including credit losses. IFRS 9, which replaces IAS 39 Financial Instruments: Recognition and Measurement ("IAS 39"), uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. The Company retrospectively adopted this standard on the effective date of January 1, 2018 resulting in a reclassification of financial assets previously classified as loans and receivables to financial assets at amortized cost. However, there was no impact to the measurement of these financial assets and adoption of this standard did not have any impact on the Company's net earnings (loss).

### 4. Accounts receivable and other and subscription receivable

Included in accounts receivable and other as at June 30, 2018 is:

#### 5. Short-term loans

Balance - December 31, 2017 <sup>(i)</sup>	200,000
Issuance of promissory note - Dagobah Ventures Ltd (ii)	80,000
Issuance of promissory note - Andy Keith (iii)	250,000
Repayment of promissory note - Dagobah Ventures Ltd (ii)	(80,000)
Balance - June 30, 2018	450,000

- (i) On November 30, 2017, the Company entered into a letter of intent with Dagobah Ventures Ltd ("DVL"). Under the agreement, DVL will acquire all the issued and outstanding securities of the Company and apply for a listing on the TSX Venture Exchange, which will constitute a reverse takeover transaction of DVL. Closing of the transaction is subject to the satisfaction of customary closing conditions and the Company completing a private placement equity financing.
  - In connection with the execution of the letter of intent, the Company received \$200,000 from DVL by way of an unsecured interest-free demand loan, provided however, that demand may only be made by DVL from and after the date on which the letter of intent is terminated being the earlier of: (i) the date of execution of a definitive agreement; (ii) February 28, 2018; and (iii) the date the contemplated transaction is rejected by the Securities Exchange and all recourse or rights of appeal have been exhausted. DVL has not demanded repayment as the date of these financial statements and it is expected that the payable will be eliminated via the reverse takeover transaction.
- (ii) On January 18, 2018, the Company received \$80,000 from DVL by way of an unsecured interest-free demand promissory note and is subject to the same demand terms as described in (i) above. In the six months ending June 30, 2018, the Company repaid \$80,000 of the outstanding balance to DVL.
- (iii) On February 5, 2018, the Company received \$250,000 from Andy Keith, a director of the Company at the time of issuance, by way of an unsecured interest-bearing demand promissory note, provided, however that demand may only be made from and after 90 days after the date of issuance. The note bears interest at the rate of 25% annually, compounded monthly with a minimum charge of three months interest from the date of issuance. The Company has the right to prepay the whole or any part of the balance outstanding without notice, bonus or penalty, subject to the minimum interest requirement. Mr. Keith resigned as a director on April 11, 2018. During the six month period ended June 30, 2018, the Company recognized interest expense of \$25,832 (2017 \$Nil) in relation to its this loan. The note and accrued interest was repaid in the third quarter of 2018.

#### 9. Stock-based compensation

Under the Company's stock option plan, the Company may, at its discretion, grant stock options to its directors, officers, and employees. The options vest over periods ranging from upon issuance to four years.

All of the options expire 10 years from the date of grant with expiry dates ranging from May 2024 to October 2027. Below is a continuity of stock options outstanding:

	June 30, 2018
Stock options outstanding - beginning of period	1,121,606
Stock options issued	-
Stock options exercised	(72,901)
Stock options outstanding - end of period	1,048,705

569,709 options were vested and exercisable as at June 30, 2018 (December 31, 2017 – 452,660).

For the six months ended June 30, 2018, the Company recognized \$125,018 (2017 – \$119,430) of stock-based compensation.

### 10. Loss per share

For all the periods presented, diluted net loss per share equals basic loss per share due to the anti-dilutive effect of options and warrants. The outstanding number and type of securities that could potentially dilute basic net loss per share in the future but that were not included in the computation of diluted net loss per share because to do so would have reduced the loss per share (anti-dilutive) for the periods presented are as follows:

	June 30, 2018
Stock options	1,048,705
Warrants	104,766
Total	1,153,471

### 11. Capital risk management

Capital is comprised of the Company's shareholders' equity (deficiency) and any debt it may issue. At June 30, 2018, the Company's shareholders' deficit was \$1,726,478 (December 31, 2017 – \$186,815) and the Company's debt was \$1,007,968 (December 31, 2017 – \$823,673).

The Company's objective is to maintain a capital structure that supports its long-term growth strategy, maintains creditor and customer confidence, and maximizes shareholder value. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. No changes were made in the objectives, policies or processes of capital management during the six month period ended June 30, 2018.

Notes to the Condensed Interim Financial Statements For the six months ended June 30, 2018 and 2017 (Unaudited) (Presented in Canadian dollars)

### 11. Capital Risk Management (Continued)

The Company is dependent on cash flows generated from its operations and from external financing to fund its activities. The Company will spend its existing working capital and raise additional amounts as needed. The Company is not subject to any externally imposed capital requirements.

#### 12. Financial instruments

In the normal course of its business, the Company is exposed to a number of financial risks that can affect its operating performance. These risks, and the actions taken to manage them, are as noted below.

#### Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, foreign currency risk and other price risk such as equity price. The Company's exposure to other price risk is low. Financial instruments affected by market risk include accounts receivable, capital lease obligations and accrued liabilities, and long-term debt.

### (i) Interest rate risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company's long-term debt and capital lease obligations are subject to fixed interest rates and the risk of fluctuating future cash flows resulting from changes in market interest rate is limited.

### (ii) Foreign currency risk

Foreign exchange risk arises when the Company enters into transactions denominated in a currency other than its functional currency. A significant portion of the Company's revenue are denominated in United States dollars ("USD") along with a portion of its purchases. To the extent possible, the Company uses cash received from sales to finance its USD purchases and limit its exposure to foreign currency risk.

The Company has the following balances denominated in USD (amounts in the table below are post-translation to Canadian dollars):

	June 30, 2018	Dec	ember 31, 2017
Cash	\$ 202,730	\$	235,676
Accounts receivable	\$ 997,357	\$	1,088,653
Accounts payable and accrued liabilities	\$ 693,283	\$	683,955

If a shift in foreign currency exchange rates of 10% were to occur, the foreign exchange gain or loss on the Company's net monetary assets could change by approximately \$51,000 at June 30, 2018 (December 31, 2017 – \$66,000) due to the fluctuation and this would be recorded in the statements of comprehensive income.

Notes to the Condensed Interim Financial Statements For the six months ended June 30, 2018 and 2017 (Unaudited) (Presented in Canadian dollars)

### 12. Financial instruments (continued)

#### Concentration of credit risk

The Company is exposed to credit risk with respect to the collectability of its customer accounts receivable. Credit risk is concentrated as three customers represented 53% at June 30, 2018 (December 31, 2017 – three customers represented 77%) of the Company's accounts receivable balance. The Company performs credit assessments of potential customers and insures its accounts receivable where appropriate. Regular credit assessments are performed of customer's accounts receivable balances and allowances for potentially uncollectable accounts are provided where appropriate.

### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk resulting from its accounts payable and accrued liabilities, short-term loans, capital lease obligation, and long-term debt by ensuring sufficient cash is on hand from cash flows from operations and financing from investors. As at June 30, 2018, the Company had a working capital deficiency of \$1,081,476 (December 31, 2017 – positive working capital of \$841,340).

Contractual maturities of the Company's capital lease obligation and long-term debt are outlined in Notes 6 and 7 to the Condensed Interim Financial Statements, respectively. Other financial liabilities, including accounts payable and accrued liabilities and short-term loans, have maturities within 12 months of the Company's period end.

### 13. Commitments

The Company has entered into a lease agreement for its premises with estimated minimum annual payments as follows:

Total	\$ 83,037
2019	 47,450
2018	35,587

The Company is committed to pay Grenville Strategic Royalty Corp equal to 1.125% of its annual revenue unless the buyout options are exercised.

Subsequent to the quarter end, the Company entered into an agreement with a third-party consultant (the "Consultant") for the provision of ongoing management services. The agreement confirmed a verbal arrangement made previously and is effective for the period from January 1, 2017 to December 31, 2019. Under the terms of the agreement, the consideration that the Consultant receives is contingent on the Company being listed on a publicly traded-exchange (contingent on completion of a "go public transaction"). If the Company successfully completes its go public transaction then the Consultant is entitled to receive a number of common shares of the Company with a market value equal to the estimated fair value of the ongoing management services, which is \$600,000.

### 14. Segment information

The Company has one reportable segment. This single reportable operating segment derives its revenues from the sale of off-grid solar power solutions and related services.

The Company operates in three principal geographical areas, Canada, United States of America ("USA"), and Africa, as well as other areas.

The Company's revenue from external customers by location of operations is detailed below:

	 Three Months Ended Jun 30,		
	2018		2017
Canada	\$ 522,256	\$	62,754
USA	239,349		10,934
Africa	928,915		73,446
Other	7,176		-
	\$ 1,697,696	\$	147,134

#### 15. Reverse Takeover Transaction

On November 30, 2017, the Company entered into a non-binding letter of intent with Dagobah Ventures Ltd ("DVL") pursuant to which DVL will acquire all of the issued and outstanding securities of the Company (the "Transaction") and apply for a listing on the TSX Venture Exchange (the "Exchange"). Upon completion, the transaction will constitute a reverse take-over of DVL by the Company with the resulting company ("Resulting Issuer") to be renamed as the parties may reasonably agree upon and as is acceptable to the Exchange.

On February 16, 2018 the Company and DVL entered into an amended and binding letter of intent with regards to the Transaction. Under the terms of the agreement, the Transaction is expected to be effected by way of a reverse triangular amalgamation under the laws of Ontario. 2621388 Ontario Ltd. ("DVL Subco"), a wholly-owned subsidiary of DVL, is expected to be merged with and into the Company. The separate corporate existence of DVL Subco will cease and the Company will be the surviving corporation and will be wholly-owned by the Resulting Issuer.

To facilitate the Transaction, the Company will undergo a split of its outstanding common shares on the basis of post-split 2.63 common shares for each one pre-split common share of Clear Blue prior to the completion of the Transaction. All the outstanding common shares of the Company (excluding the Clear Blue common shares to be issued on the conversion of the subscription receipts (as described below)) will then be exchanged for 25,000,000 common shares of DVL. In addition, all the outstanding convertible securities of Clear Blue (including share purchase warrants and stock options) will, subject to the rules of the Exchange, be exchanged for convertible securities of the Resulting Issuer based on a 1:1 ratio and on the same economic terms and conditions as previously issued. Closing of the Transaction is subject to the satisfaction of customary closing conditions and the Company completing a private placement equity financing.

On February 22, 2018 and March 14, 2018, the Company completed the equity financing by way of a brokered private placement in two tranches which resulted in the issuance of 8,569,000 subscription receipts at a price of \$0.80 per subscription receipt for aggregate gross proceeds to the Company of \$6,855,200. Each subscription receipt will automatically be converted immediately prior to the closing of the transaction into a Clear Blue unit comprised of one Clear Blue common share and one half of one Clear Blue common share purchase warrant. Each share purchase warrant will entitle the holder thereof to purchase one common share of Clear Blue at a price of C\$1.50 per common share for a period of 24 months following the closing of the private placement. Each Clear Blue common share and share purchase warrant issued in the private placement will automatically be converted into Resulting Issuer common shares and Resulting Issuer warrants upon the completion of the Transaction.

50% of the gross proceeds from the private placement (the "Escrowed Proceeds") are currently being held in escrow until the satisfaction of certain escrow release conditions, including confirmation that all conditions precedent to the transaction, other than the release of the Escrowed Proceeds, have been satisfied. The remaining 50% of proceeds, net of expenses and fees (\$3,028,661) have been paid to the Company.

The Company has filed its preliminary listing application with the Exchange and is awaiting preliminary approval of the application. On June 14, 2018, a special shareholders meeting approved (i) the amalgamation of the Company and DVL Subco, pursuant to the provisions of the *Business Corporations Act* (Ontario) and the terms of an amalgamation agreement dated April 25, 2018 among the Company, DVL and DVL Subco; and (ii) the split of the issued and outstanding common shares of the Company on the basis that 1 common share shall become 2.63452 common shares.

Notes to the Condensed Interim Financial Statements For the six months ended June 30, 2018 and 2017 (Unaudited) (Presented in Canadian dollars)

### 16. Subsequent Events

On July 13, 2018, the Company completed the Transaction with DVL and DVL Subco. The Resulting Issuer name was changed to Clear Blue Technologies International Inc. It's trading symbol on the TSX Venture is CBLU. On the same day, all the remaining Escrowed Proceeds was released to the Company.
