

Industry Update

› FEBRUARY 2021 ISSUE

WELCOME

Welcome to the first newsletter for 2021.

Well, like most of you, we have been back on deck since early January. It's a busy time of the year for us, with the annual revalidation of the fire alarm product register, assessment of certified fire alarm contractors, development of the next series of 'Get it Right' seminars, and the careers projects we are working on, not to mention rejigging all of the arrangements for FireNZ, which will take place in October this year. So, below, a few updates on some of these topics.

Careers Initiatives

We have collated the results of last year's 'careers survey' of members and formulated some key areas to focus on. These are some of the main things to be tackled before the end of this financial year (30 June 2021):

› Marketing and industry promotion to school leavers and other trades. We are developing a suite of marketing collateral to advertise the types of jobs involved in the fire protection industry. These short introductions and flow charts will enable school leavers and others interested in entering our industry to see at a glance what careers

and paths are available. We will be continuing our advertising in magazines such as Leaving School, a free guide to study and career options for year 11–13 students that circulates some 90,000 copies each issue.

- › Attending New Zealand wide careers events for industry promotion. We will have stands at careers events, aiming first for main centres such as Auckland, Wellington, and Christchurch. These careers events will see FPANZ and industry representatives meeting with careers advisors, parents, school leavers, and recruitment representatives to actively promote our industry and the careers on offer.
- › Delivering a dedicated fire industry careers website. This website will be part of our full redevelopment of the current FPANZ website. It will have dedicated information on careers in our industry and relevant qualifications for our industry as well as links to career opportunities and training providers.

Scott Lawson

Competenz and Qualifications

We have been working even more closely with our industry training provider, Competenz, in the continued promotion of the fees free scheme and getting industry participants onboarded and underway with their qualifications. A full review of existing qualifications by industry subject matter experts will take place shortly. This will be a chance for the industry to review current qualification modules and make minor changes where needed.

We are also now actively working with the dedicated job seekers area within Competenz. This is a new service that links employers and job seekers via a dedicated website and staff. This service is free for our members and provides a recruitment specialist to assist with the process for both employers and prequalified and motivated jobseekers. You can find more about this on page 8 or visit the Competenz Jobseekers Board at <https://www.competenz.org.nz/jobseekers/finding-a-job/>

FPANZ PLATINUM MEMBERS

Membership Process

Having completed the review of how we onboard new members, we will start accepting new members this month. We have some new requirements, mostly around a new provisional membership category. All companies, organisations, and individuals wishing to join FPANZ will first be a 'provisional member' for a minimum of 12 months. Once this provisional period is completed, members can apply to be accepted into the appropriate current membership tier based on staff numbers. We also now have further requirements for references and endorsements from clients and existing FPANZ members. Most of these changes are to update our internal processes and welcome new members in and have them engage with our existing membership in forums such as the special interest group (SIG) meetings, the 'Get it Right' seminars, and the FireNZ conference. These changes do not affect existing members.

FireNZ

Late last year, because of the global pandemic, we postponed the FireNZ conference to 27–29 October 2021. I can confirm that all planning is back on track, with the Energy Events Centre in Rotorua booked. Updated details for exhibitors, speakers, and delegates will again be on our website www.firenz.org. We are already getting great feedback,

and exhibitors and members are looking to reconnect again, having missed FireNZ for a year. We will also have an updated refund and cancellation policy to give both our exhibitors and delegates some certainty about what happens should the event be cancelled at short notice. So, lock these dates in your calendar now, as I'm sure we all look forward to the return of FireNZ and the important networking opportunities we have missed during this pandemic.

'Get it Right' Seminars

In next month's update, we will be launching this year's first 'Get it Right' seminars, so make sure you check out the March newsletter for updates on dates and topics. The first will be a gas flood seminar as industry has been calling for this one. We have lined up some great speakers and content for these full-day sessions that will take place in Auckland, Wellington, and Christchurch.

As you can see, there is plenty going on and that's without mentioning any of the activity happening within the SIGs. Updates on these groups can be found further in the newsletter.

Until next month,

Regards, **Scott Lawson**
Chief Executive Officer, FPANZ

Changes to Regulations on Trial Evacuations and Training Programmes

(Fire and Emergency New Zealand (COVID-19—Fire Safety, Evacuation Procedures, and Evacuation Schemes) Amendment Regulations (No 2) 2020)

The requirement for building owners to conduct trial evacuations or evacuation training programmes will be reinstated from next Monday, 1 February 2021, provided there are no physical distancing requirements in place for the area in which the building is located. Specific exclusions have been included in the changes to accommodate those buildings which are in use as Managed Isolation and Quarantine Facilities.

Building owners are not expected to resume trial evacuations or evacuation training programmes immediately the changes come into force. To work out when the next trial evacuation or training programme notification is due, you calculate a 6-month period that excludes the time from 25 March 2020 to 31 January 2021.

This means, for example, if a building was due to have a trial evacuation conducted by 10 April, 17 days after the suspension began, there will be a requirement to conduct a trial 17 days after the changes take effect which will mean 17 February 2021. This is provided there are no physical distancing requirements in force.

If you have any questions, please contact the Fire Information Unit on 0800 347 346 or email fireinfo@fireandemergency.nz

HOFFE SIG Update

» Author **Steve Smith** – HOFFE SIG Chair

Well we are back for another year and two months gone. Thankfully we have managed to get the first meeting of the year done in Auckland before the first COVID scare hit and put us into another brief lockdown (not level 4 thankfully).

I would like to encourage those who are interested in this sector to participate in our HOFFE meetings, remember we are working on behalf of the fire equipment industry but can only be guided in our efforts by the feedback we get from our HOFFE group members. With important issues and in some cases fundamental documents like the review of NZS4503 underway, it is a good time to be involved and input into your company's future. How often do we hear from people saying after the fact that they wish this or that had been done during the revision, yet ironically some of these people have also dismissed the opportunity to be part of team carrying out the revision.

Remember that for our meetings, while it is better to be there in person, you do not have to physically attend the meeting unless you wish to or are able to. You have the opportunity to join us electronically and participate in discussions with the group that way.

Have a great month, enjoy the sport on offer and stay safe.

Kind regards, **Steve Smith**,
HOFFE SIG Chair 2020/2021

Evacuation Consultants SIG Update

» Author **Phil Jackson** – Evacuation Consultants SIG Chair

As we move further into 2021 it is evident that we will continue to see ourselves operating at various covid-19 alert levels. It is important to remain flexible with the way we maintain evacuation schemes to ensure that we not only meet the needs of FENZ and regulations, but also fulfil our requirements of third parties that also require training and drills to be completed. It is vital we continue to ensure staff and building occupants are familiar with their procedures.

We continue to focus on the ability to evacuate all persons from a building, and we have greater input at the design stage, I would like to remind you that the SIG group welcomes fire engineers, architects and any other people that have queries and ideas that will assist in making evacuations safer for all.

I look forward to seeing you at our next SIG meeting, don't forget we have conference calling facilities so you can dial in from anywhere in the country. Keep an eye on the website for meeting dates and locations.

Regards, **Phil Jackson**
Evacuation Consultants SIG Chair 2020/2021

Passive Fire Protection SIG Update

› Author **Justin McEntyre** – Passive Fire Protection SIG Chair

Competency & Trust

Sadly I am hearing more or more frictions within the industry between Passive Fire Contractors and consultants and Council inspectors.

These frictions often seem to be coming from like minded operators but the boiling point appears to be that Specialist Contractors aren't feeling their expertise is valued or they are constantly being challenged with no respect first offered. Almost a guilty until proven innocent attitude.

It is important that Passive Fire Contractors, Fire Engineers, Third Party inspectors are on the same page as often these will be the only parties involved in a project that care about passive fire or have the level of knowledge required on site regarding passive fire.

There seems to be a growing mentality from inspectors that all passive fire installs are wrong. Inspectors are then hunting down any microscopic detail they can fail or grandstand upon. Likewise at the front end of a project, specifications are being prepared which the Contractor must follow. However, specifications are seldom perfect & there needs to be a mechanism for change or adaption. At present the complaints I'm hearing are that Contractors are the meat in the sandwich on such issues & taking all of the flack. None of which provides a best for project or best for client outcome.

Due diligence, inspection and challenging installations is an important part of Passive Fire protection. However, the starting point should be to first check the competency and credibility of the contractor executing the work. Often these Contractors have more experience with Passive Fire than anyone else involved in the job & have been doing it at the coal face for several years, whereas inspectors may have only recently been given an introduction.

There has been a surge of contractors taking up Passive Fire protection in recent years which is positive but comes with risk. The risk being that there are inexperienced and less credible contractors in operation. Therefore again Councils, Main Contractors, Fire Engineers and Third Party inspectors should be checking the experience, credibility and competency of the company and individual staff before the works commence or before even tendered. This is the best chance to stop poor and non-compliant installations.

If thorough due diligence is done during procurement then there is every chance of a strong relationship that provides best for project and client outcomes.

SFPE is soon to release a CM guide which includes Passive Fire protection. I encourage everyone to digest this and take into practice.

Also I encourage the following questions be asked by Inspectors, Engineers and Councils before making a broad assumption of all contractors:

- 1. Previous Track record?**
 - a. Similar size/ scope projects
- 2. Who is the Site Supervisor overseeing & what is their experience?**
- 3. Training (NZQA Level 3)**
- 4. Accreditation with Manufacturers**
- 5. QA Processes**
- 6. Insurances (PI & PL)**
- 7. Interview** – meet with them & gauge for yourself their credibility if you've not dealt with them previously.

Kind Regards,

Justin McEntyre

Passive Fire Protection SIG Chair 2020/2021

What is next for your business?

Author **Kerry Ludlam** | Management Response Limited

Management Response Ltd (MRL) is a small company of experienced business professionals with a proven track record of achieving great outcomes for SME businesses and NFP organisations. We help business owners and managers improve or grow their business, maximise returns and plan for succession or exit.

As an SME owner or manager, you will surely ask yourself from time to time many questions about performance, business improvement, strategic development and simply “what next”? In this article we explore some of these questions and offer some thoughts on how you might get answers that suit your business.

Do you need help addressing opportunities to improve your business?

Even the most stable, well run, and sustainable business can always do better. Performance can always be improved, to the benefit of clients, staff, and shareholders. You might find it helpful to have access to experienced SME business owner managers to work with you “on your business”, defining a roadmap and a way forward. Increases in client retention, staff satisfaction and the bottom line are always welcome, but it can be difficult to see the opportunities if you are bogged down in the day-to-day business and even harder to take advantage of them in a cost-effective way. Bringing about change is hard and risky. There is no guarantee that change will deliver positive outcomes. The right person (i.e., with relevant SME experience), at the right time (i.e., part-time, as required) and at the right cost (i.e., an affordable investment) might make a big difference to you and your business.

Do you feel isolated or alone leading and running your business?

Some company owners use business advisors or mentors to help them, either formally or informally. Others establish boards, separating governance from management. Whatever the approach, they all cost time and money and do not always deliver successful outcomes or add the required value. As a business owner, you will almost certainly know your company’s strengths and weaknesses better than anyone. But there’s little doubt that it is helpful to be able to share your ideas or to take soundings from others. To be effective, these people need to be one step removed from the company but have sufficient appreciation of the company and understanding of the sector to make a meaningful contribution. That is a difficult balance. Our focus as experienced business professionals is to work with SME businesses owners and managers to help them improve their business and deliver the goals set for their business and themselves – our interest is in adding value to the businesses we are involved in and not building careers or chasing the big money.

Are you thinking about succession and exit?

There are many businesses which have become very successful because of years of hard graft, good decision-making, and quality service. Building a good reputation takes years. All too often, business owners start to think about their own wellbeing and future too late, often because they are too busy working in the business. They often do not want to let go because they worry that no-one will do it quite as well as them and that their legacy will be lost. This often results in a succession plan and/or an exit strategy being too late in the making or simply not existing at all. There are

CONTINUED NEXT PAGE...

What is next for your business? *cont..*

many steps in preparing for sale, transition, and exit. Most business owners need help to make their business sale-ready to extract optimum value and a just return on the many years of diligent application and risk taking. Your company needs to be valuable to others once you have moved on. You may have employees with the desire to take the business on, but they may not have the wherewithal to invest and, when the chips are down, the appetite.

Business brokers might help you sell your business, but they will not be able to help you get it sale-ready and may not do it in a way that leaves you content and with what you feel is an appropriate return.

MRL has proven experience in providing answers to these and other equally challenging questions for SME businesses and NFP organisations. There will be other firms offering the same advice, but do they have the experience running SME businesses to provide the help you need for an affordable investment that will deliver the agreed results for you and your business?

What is next for your business?

If you would like answers to the questions raised in this article and take the opportunity to step away from the day-to-day and start working **ON** your business rather than **IN** it, please get in touch with Kerry Ludlam, one of MRL's Directors, for a confidential discussion on +64 27 598 8033 or kerry.ludlam@managementresponse.nz.

Take advantage of our special introductory offer to FPANZ members of a complimentary and without obligation "Two hour working **ON** your business" session that will help you identify some key priorities to improve your business and required actions to achieve your immediate goals.

Use of FPANZ Logo

Recently we have noticed that some of our FPANZ members (and even non-members) have been incorrectly using our FPA trademarked corporate logo. This logo is not to be used by any entity without the written permission of the Chief Executive Officer and/or FPANZ Board. The purpose of this logo is to provide a corporate identity for the Association in its general course of business activities.

The FPANZ membership tier status logos shown below are licensed to be used by any financial member of FPANZ who has signed up to the FPANZ Code of Ethical Conduct and is fully compliant with all its requirements.

For a list of logo guidelines please visit our website <http://www.fireprotection.org.nz/about-us/logos>.

If you are using an incorrect logo and would like to request a membership logo for use, please email info@fpanz.org

If you are not an FPANZ member and have not gained written permission to use the FPA logo, then we ask that you remove it from your website, email signature or anywhere else that it is currently being used.

Recruitment service

Let us help you find the right fit for your business.

Advertise your entry-level and apprentice roles with Competenz through our online job board; we have pre-qualified and motivated jobseekers ready to match with your organisation today.

Email our recruitment specialist to discuss your options at recruitmentsolutions@competenz.org.nz

Or visit the online [jobseekers](#) board. 

All fire protection industry qualifications are now free

There has never been a better time to train, or retrain, on-the-job. All fire protection industry qualifications offered by Competenz are free from 01 July 2020 until 31 December 2022 for new and current learners.

There are also government wage subsidies available for employers of apprentices in their first two years of training.

Developed in conjunction with industry experts, our range of fire protection qualifications cover skills in fire detection and alarms, passive fire protection and hand-operated firefighting equipment.

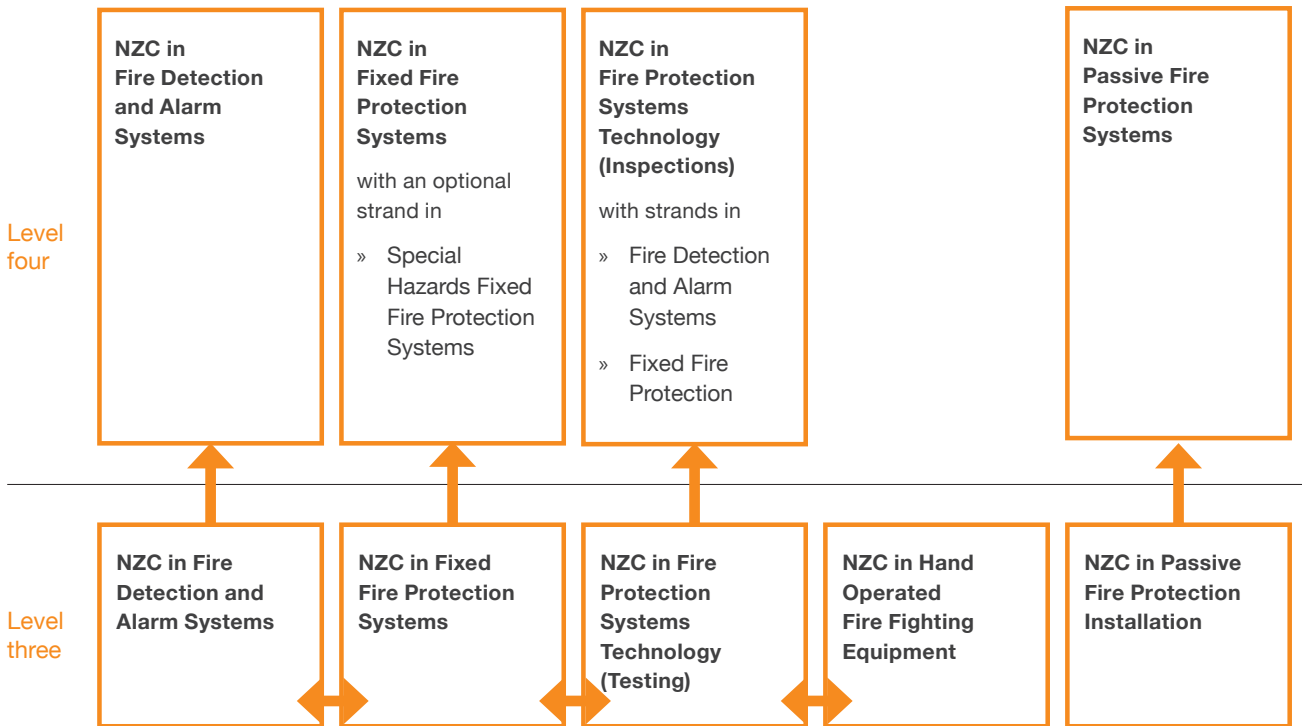

These qualifications take a step-by-step approach. Key benefits of the programmes are:

- » A combination of practical and theory to develop both knowledge and skills
- » Interactive learning available online 24/7
- » Covers critical health and safety aspects of your work
- » Competenz training advisor visits to support learners through their training
- » Nationally recognised qualifications registered with the New Zealand Qualifications Authority (NZQA).

New Zealand Certificates in fire protection

Competenz has created logical pathways for learners to progress, with five New Zealand Certificates at level 3 and six New Zealand Certificates at level 4.

Training with Competenz

Competenz is the industry training organisation (ITO) for the fire protection industry.

Developing highly skilled employees is critical to staying competitive, productive and safe. To do this Competenz works with industry experts to develop nationally recognised qualifications, mapping the skills needed and registering them with NZQA. Our team also develop training plans to make it easy for you to grow your employee's skills and productivity.

We do this in 37 industries with more than 3,500 businesses, helping over 20,000 people develop their skills on-the-job each year.

To find out more about the fire protection qualifications call our customer services team on 0800 526 1800 or email info@competenz.org.nz.

www.competenz.org.nz

What could you be eligible for as an employer or learner?*

Free
Apprenticeships
and Targeted
Traineeships
(TTAF)

One of the following*

Apprenticeship
Boost

Mana in Mahi
Extension

Regional
Apprenticeship
Fund

Select one from the following:

	Targeted Training and Apprenticeship Fund (TTAF)	Apprenticeship Boost	Mana in Mahi Extension	Regional Apprenticeship Fund
What is it?	Free fees on apprenticeships, plus traineeships in targeted sectors	Wage subsidy	Wage subsidy + additional pastoral care	Wage subsidy + additional business support
How much could an employer get?	All fees that an employer would normally pay to an ITO will now be covered. This includes resources, block courses, night classes, study groups and e-learning fees.	Apprenticeship Boost will be available from August 2020 and runs for 20 months. An apprentice who is in the first year of their apprenticeship will be eligible for \$1,000 per month, and an apprentice in their second year is eligible for \$500 per month for a maximum period of 20 months.	The wage subsidy will be increased – up to \$16,000 for a first year participant. Up to \$8,000 for a second year participant. The fund pays for any training your employee needs before they start. WINZ will also work with your employee to: <ul style="list-style-type: none"> » Set achievable goals » Provide incentive payments to motivate them to meet their goals » Provide support to start their qualification or apprenticeship » Get their feedback on how things are going. 	The initiative allows for up to \$40,000 of support per apprentice. This includes a wage subsidy of up to \$16,000 for the first year of training Up to \$8000 for the second year. It also includes additional funding to help with other business support and pastoral care so the employer and apprentice can successfully maintain the apprenticeship.
What period does it cover?	1 July 2020 to 31 December 2022 (30 months)	From August 2020 to March 2022 (20 months)	From August 2020, programme support will be extended from 12 up to 24 months.	More information to come
What are the employer's/ apprentice's eligibility criteria?	All apprentices are eligible – new and currently enrolled All traineeships in targeted areas are eligible – new and currently enrolled, if they are enrolled in a L3-L7 qualification. This does not currently cover pan-sector skills such as OSH, Sales, Distribution, Leadership, Business Administration. All learners enrolling into a Competenz qualification must meet the entry requirements, with the aim of completing the full qualification, with the full support of their employer.	Employers of first and second year apprentices who are currently in, or newly enrolled in, a Tertiary Education Commission approved New Zealand Apprenticeship or a Managed Apprenticeship	Need to have a Mana in Mahi candidate through Work and Income employed as a first or second year apprentice, who is in a Tertiary Education Commission approved New Zealand Apprenticeship or a Managed Apprenticeship. Otherwise need to employ a new apprentice through the Mana in Mahi scheme.	Need to employ a worker displaced by the effects of COVID-19 as well as be a person of Māori or Pacific descent. More information to come.
What do I do next?	Nothing – Competenz will automatically apply the free fees to invoices for eligible learners, or credit enrolled learners based on their pro-rated fees post 1 July 2020. Any questions, please email freetraining@competenz.org.nz	Apply through WINZ workandincome.govt.nz/work/apprentice-support	Apply through WINZ workandincome.govt.nz/work/apprentice-support	Go to the WINZ website workandincome.govt.nz/work/apprentice-support
