

Industry Update

› MAY 2021 ISSUE

WELCOME

Welcome to May's newsletter,

We are approaching the end of the current financial year, which brings an increase in workload as we wrap things up, prepare for the annual audit, and formulate our plans and budgets for the new year. Along with this, we have a busy couple of months with the seminars and careers events we have running in the next 6 weeks.

Scott Lawson

SEMINARS

Just a reminder of the dates and venues for the NZS 4512:2021 Get it Right seminars. If you have staff booked on these, please remind them to put it in their calendars.

Dunedin:	10 June 2021	Kingsgate Hotel
Christchurch:	11 June 2021	Riccarton Park Function Centre
Wellington:	24 June 2021	Sky Stadium
Auckland:	5 July 2021	Royal NZ Yacht Squadron
Auckland:	6 July 2021	Royal NZ Yacht Squadron
Tauranga:	7 July 2021	Baypark Stadium

Almost all spaces have sold out, so if you were unable to book in, please email us with the number of places you need and the location, and we will see whether demand is high enough to schedule additional sessions. Also, just a reminder: when we announce these seminars, it really does pay to sign up asap to avoid missing out.

The Passive seminar is on 22 June 2021 at Riccarton Park Function Centre, Christchurch. We intend to hold additional sessions in Auckland and Wellington in the next couple of months. The passive seminar is aimed around awareness of passive requirements for those not working within the passive sectors. As such, it is not specifically intended for passive members unless they are new to the industry.

MEMBERSHIP YEAR

The current membership year finishes at the end of June, and we will be sending out renewal packs then. Please remember that you are required to review and complete the declaration to ensure your membership level reflects the number of staff you have. We will not be increasing the membership fees for the new year, so it is important that members do pay the correct fee based on their company size. Part of the declaration requires you to confirm equivalent full-time employees, which determines the membership fee. Our ability to continue to deliver services to our members is directly determined by the number of members paying the

CONTINUED NEXT PAGE...

FPANZ PLATINUM MEMBERS

correct fees and on time. Also, just a reminder that the new membership process requires that any members who choose to resign and later re-join will need to go through the new process (see the April newsletter for details of what this involves).

PRODUCT SHORTAGES & PRICE INCREASES

In the past couple of months, I have been meeting with members to discuss the implications of product shortages and price increases in the construction sector. Not only do we have less shipping availability, delays caused by the blockage in the Suez Canal, and delays in the Auckland port, but if you add the production slippages from factories due to COVID-19, China's removal of the export tax rebate on many steel products, and global price increases, it really does start looking like a perfect storm.

I also meet regularly with several key members of The Vertical Construction Leaders Group (VCLG), and the storm is not confined to one sector or sub trade but is affecting the entire construction sector, with little respite expected in the near future. We will continue to see how the association can assist its members, and the current best advice we can give is to keep in regular contact with suppliers and your principal contractors. It would also be prudent to review contract conditions during the tender phase and seek to minimise your exposure where possible. We have also raised this issue with other sub trades and the Ministry of Business, Innovation and Employment (MBIE), but there doesn't seem to be any immediate fix to these problems.

CAREERS EXPO UPDATE

As per my last update, we are on track to attend the Dunedin careers expo on 9 June 2021 and the Wellington careers expo on 25 and 26 June 2021. We welcome all members in these regions to stop in and visit us or to register your interest in attending to meet with us and future school leavers and parents.

FIRENZ INDUSTRY AWARDS GALA DINNER

Following on from my announcement last month, just a reminder that FireNZ is coming up quickly and includes, for the first time, the "Fire Industry Awards". These new awards, which are now open for nominations, are as follows:

- › Outstanding Engineering Achievement
- › Lifetime Achievement Award
- › Young Professionals Award

Along with the President's award for each of the three FireNZ partner organisations (FPANZ, Society of Fire Protection Engineers [SFPE], Institution of Fire Engineers [IFE]), Competenz will also be presenting the "Competenz Learner of the Year" award. Nominations are now open and can be made via the FireNZ website (<http://firenz.org>) and will be accepted from any person or organisation within the fire industry; you don't have to be a member of the FireNZ organisations to nominate someone. The FireNZ Awarding Committee will consider the nominations and choose recipients. This committee is made up of representatives of FPANZ, the SFPE, and the IFE. All awards will be presented at the FireNZ gala dinner on 28 October 2021 at the Skyline Stratosfare Restaurant & Bar, Rotorua. Make sure you put the date in your calendar, as spaces for this inaugural event will be limited.

Until next month

Regards,
Scott Lawson
Chief Executive Officer, FPANZ

HOFFE SIG Update

» Author **Steve Smith** – HOFFE SIG Chair

Well yet another month has gone by, the NZ rugby teams are again dominating the Aussie teams (12 wins before a loss) and we are continuing to see more Coronavirus outbreaks overseas. This inevitably impacts on us all, but then I guess this COVID-19 environment is the new normal now.

I was pleased to see a few more faces attending our HOFFE group meeting on Friday, that said with projects like the review of NZS4503 on the go there should be more companies present as this affects many industries including insurance, compliance and of course fire equipment companies, especially those with service people working for them. Amongst those who attended the meeting either in person or by video link there were some good positive discussions held amongst the group and we once again made progress.

I have also had some phone calls regarding the move by FENZ (Fire & Emergency New Zealand) to remove foam from their fire extinguisher line up. Some are interpreting this as meaning that foam fire extinguishers must be removed from service which is simply not the case. Peter Gallagher from FENZ has reiterated at our last two meetings that it is an internal policy decision by them for them. I hope this helps to clear up any confusion as those foam fire extinguishers in use in industry can still be certified, tested and remain in circulation. It is also worth remembering that as far as fire extinguishers are concerned, for many years New Zealand has typically used a 6% - 10% concentration of AFFF up to a maximum of a C6 foam, not C8 foams which are those commented on internationally.

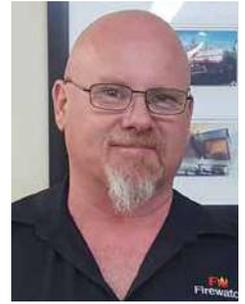

Our next meeting is on Friday 16th July at the Royal New Zealand Yacht Club, starting once again at 1pm, this is the new start time that was agreed to by the group at a previous meeting. We invite those with an interest in our sector to attend either in person or via video link, included in the meeting will be an update on the review of NZS4503 (Hand Operated Fire-Fighting Equipment) - whether you are a FPA member or not you can participate so this is your chance to have input into a widely referenced and very important document.

Have a great month,

Kind regards,

Steve Smith,

HOFFE SIG Chair 2020/2021

Evacuation Consultants SIG Update

» Author **Phil Jackson** – Evacuation Consultants SIG Chair

During our last SIG meeting the topic of training and drills was raised, there was discussion about whether carrying out a fire drill every 6 months was sufficient to ensure staff were confident in applying their evacuation procedures. Whilst maintaining a scheme by running a drill or training every 6 months worked in many cases, a discussion was held around facilities where there is a 24/7 staffing presence, it was noted that running a drill every 6 months would only be inclusive for a small number of the staff. How do you assess the frequency of training sessions and fire drills to meet the needs of your building?

There was also discussion around the preparation, and maintenance of evacuation schemes for residential apartments that had domestic smoke detection. Whilst it is desirable to have a hardwired alarm system installed there is not always a legal requirement. The new NZ4514:2021 standard was discussed which talks about interconnected smoke detection and is available for free download.

I look forward to seeing you at our next SIG meeting, don't forget we have conference calling facilities so you can dial in from anywhere in the country. Keep an eye on the website for meeting dates and locations.

Regards, **Phil Jackson**

Evacuation Consultants SIG Chair 2020/2021

Changes to Regulations on Trial Evacuations and Training Programmes

(Fire and Emergency New Zealand (COVID-19—Fire Safety, Evacuation Procedures, and Evacuation Schemes) Amendment Regulations (No 2) 2020)

The requirement for building owners to conduct trial evacuations or evacuation training programmes will be reinstated from next Monday, 1 February 2021, provided there are no physical distancing requirements in place for the area in which the building is located. Specific exclusions have been included in the changes to accommodate those buildings which are in use as Managed Isolation and Quarantine Facilities.

Building owners are not expected to resume trial evacuations or evacuation training programmes immediately the changes come into force. To work out when the next trial evacuation or training programme notification is due, you calculate a 6-month period that excludes the time from 25 March 2020 to 31 January 2021.

This means, for example, if a building was due to have a trial evacuation conducted by 10 April, 17 days after the suspension began, there will be a requirement to conduct a trial 17 days after the changes take effect which will mean 17 February 2021. This is provided there are no physical distancing requirements in force.

If you have any questions, please contact the Fire Information Unit on 0800 347 346 or email fireinfo@fireandemergency.nz

Passive Fire Protection SIG Update

Author **Justin McEntyre** – Passive Fire Protection SIG Chair

PASSIVE FIRE - GET IT RIGHT - CHRISTCHURCH, JUNE

On 22nd June we will be hosting a 'Get it Right' seminar in Christchurch.

This will be a session focused on recent developments in the Passive fire sector including Intumescent coatings Code of practice, Passive product register web filter version, Fire & smoke stopping code of practice, Passive fire design coordination.

It could be a good chance to get yourself up to speed or also consider other colleagues you work alongside that could benefit or show an interest in Passive fire protection. This could include others sub contractors, main contractors, Architects, Engineers, IQP's & Council staff. The more participants in the wider industry the better so we can spread the knowledge on Passive Fire Protection requirements & developments.

These sessions will be held later in the year in other centres as well. So keep an eye out for dates.

Spread the word and pass the flyer on.

Kind Regards, **Justin McEntyre**
Passive Fire Protection SIG Chair 2020/2021

Use of FPANZ Logo

Recently we have noticed that some of our FPANZ members (and even non-members) have been incorrectly using our FPA trademarked corporate logo. This logo is not to be used by any entity without the written permission of the Chief Executive Officer and/or FPANZ Board. The purpose of this logo is to provide a corporate identity for the Association in its general course of business activities.

The FPANZ membership tier status logos shown below are licensed to be used by any financial member of FPANZ who has signed up to the FPANZ Code of Ethical Conduct and is fully compliant with all its requirements.

For a list of logo guidelines please visit our website <http://www.fireprotection.org.nz/about-us/logos>.

If you are using an incorrect logo and would like to request a membership logo for use, please email info@fpanz.org

If you are not an FPANZ member and have not gained written permission to use the FPA logo, then we ask that you remove it from your website, email signature or anywhere else that it is currently being used.

"Get it Right" Seminar Series

FPANZ Passive Fire Get it Right Seminar

WHO SHOULD ATTEND:

This Seminar will be ideally suited toward:

- Architects/ Architectural designers
- Fire Engineers
- Structural Engineers
- IQP's
- Council Building Control officers/ inspectors
- Main Contractors/ Builders
- Services trades
- Passive fire specialists
- Manufacturers and distributors

WORKSHOP LOCATION & TIME:

22 June 2021
Riccarton Park Function Centre
CHRISTCHURCH

INVESTMENT:

- Members (single) \$300 each* +GST
- Members (multiple) \$250 each* +GST
- Non-Members \$400 each +GST

*Available to FPANZ Financial Members who are fully paid-up.

Catering is provided for this full day seminar consisting of morning/afternoon tea & lunch.

After much demand, FPANZ is please to present this full day seminar in Christchurch on Tuesday 22nd June from 8:00am - 4:20pm at Riccarton Park Function Centre.

This seminar is a great opportunity for industry participants to learn about the latest initiatives and Codes of Practice related to Passive Fire Protection.

CPD hours available for those applicable.

AGENDA INCLUDES:

- **FPANZ Introduction**
 - FPANZ Passive SIG
- **FPANZ Intumescent Coatings Code of Practice**
 - Walk through content & putting into action
- **FPANZ Passive Products Register**
 - Upcoming developments for users
- **FPANZ Fire & Smoke Stopping Code of Practice**
 - Currently in development
- **NZQA Level 3 Passive Fire Installers qualification (Competenz)**
- **Fire Test Lab/ Tested details**
 - AS1530.4/ AS4072.1
 - Test process
 - Reasons for needing to follow test details
- **Passive Fire in Design phase**
 - Specifications
 - Tendering
 - Building consent
- **Passive Fire in Construction phase**
 - Quality Control
- **Q&A**

SPEAKERS INCLUDE:

- **Justin McEntyre**
 - FPANZ Passive Fire SIG
 - Contego Owner/ Operator
- **Rodney Stringer**
 - Carboline South Island Business Development Manager
- **Thomas Moser**
 - CPENG Fire Engineer, Holmes's Fire Testing Lab
- **Scott Lawson - FPANZ CEO**

SEMINAR CONTENT:

The workshop will be presented in a series of parts covering the following timing and topics:

From 8.00am	Registrations (tea and coffee)
8:30am	Kick-off session
10:15am	Morning tea
10:30am	Second session
12:15pm	Lunch
1:00pm	Third session
2:45pm	Afternoon tea
3.00pm	Final session
4:00pm	General Q&A/comments
4.20pm	Closing remarks, evaluation

WORKSHOP LOCATION & TIME:

22 June 2021
Riccarton Park Function Centre
CHRISTCHURCH

INVESTMENT:

- **Members (single) \$300 each* +GST**
- **Members (multiple) \$250 each* +GST**
- **Non-Members \$400 each +GST**

*Available to FPANZ Financial Members who are fully paid-up.

Catering is provided for this full day seminar consisting of morning/afternoon tea & lunch.

PRESENTERS

■ Justin McEntyre

Justin is the current Chair for FPANZ Passive SIG, FPANZ Director and Owner/ Operator of Contego a Passive Fire Protection company based in the Lower South Island. He started his career as a Project Manager for a Main Contractor and has extensive experience in Design and Build projects. In recent years he has founded Contego and oversees design, specification, Passive fire installs, Intumescent Paint application and IQP services. Justin has been involved in the development of all of the initiatives FPANZ has produced in recent years including; NZQA Level 3 Passive Installer qualification, Intumescent Coatings Code of Practice, Passive Products Register, Position Statements, and Fire & Smoke Stopping Code of Practice.

■ Rodney Stringer

Rodney has gained over 15 years' experience in the Industrial coatings industry and is the South Island Business Development Manager for market leader Carboline. Rodney has a great understanding of the processes for specification and application of Intumescent paints on commercial projects. Rodney's technical knowledge spans all stages of Steel protection and has vital knowledge of the Quality systems required to achieve compliant Intumescent coatings on a project. Rodney specialises in assisting design and construction teams with project specifications for Intumescent paint.

■ Thomas Moser

Thomas is a CPENG Fire Engineer at Holmes Solutions who has recently taken up the challenge of leading Holmes's Fire Testing lab based in Christchurch. Having worked as a Fire Engineer, spent time on site resolving installation issues, and now running the testing Laboratory, Thomas has a wide breadth of invaluable experience. He will share details of why replicating tested systems are so important, the pitfalls you should avoid, and what is the best process to achieve a successful outcome. Thomas has deep understanding of AS1530.4 and applying this with respect to the Building Code requirements, as well as applying this to development opportunities.

■ Scott Lawson

With over 30 years of fire protection experience starting as a fire alarm technician, moving to project management with experience in the Electronics, Fire Protection, Security, ICT sectors, Scott has a passion for managing technically challenging projects. Over the last decade, Scott's project management experience has spanned across Australia, New Zealand and the Pacific Islands.

Scott has managed fire alarm product development, and APAC distribution & logistics centres for fire protection and security products and is currently the CEO of FPANZ.

Fire formal interpretations

4 May 2021

FI-142

NZS 4512:2010 *Fire Detection and Alarm Systems in Buildings* – Definition of Co-located (104)

Question:

Does the requirement for two pieces of co-located equipment to have “common access” mean that they must both be in the same room?

Interpretation issued by the Alarms and detection group:

Yes, when located indoors the two pieces of equipment need to both be accessible from within the same room.

Where the equipment is accessed from outdoors there shall not be any gate, door, fence, wall, or other impediment to access between the two.

NOTE: The 5 m maximum separation limit is a walking distance between the two pieces of co-located equipment and applies in all cases.

This interpretation also applies to NZS 4512:2021 (in publication).

OPINION

› Author **David Prosser** | FPANZ Lifetime Member

QUESTION: Now that it has been published, when will NZS 4512:2021 come into effect?

ANSWER: Progressively...

NZS 4512:2021 has been foreshadowed by MBIE to be cited in the Building Code Acceptable Solutions as of late 2022. Assuming that happens, NZS 4512:2021 will become mandatory for all new installations consented according to C2/F7:2022 after their inception date (whatever that is). Prior to that date, the new NZS 4512:2021 will apply whenever a Building Consent Authority (BCA) decides to cite it in a building consent, either for a new installation or for alterations to an existing system. The new 'minor works' provisions of 5.5.5 may also help BCAs with consenting policies around small alterations to existing systems.

For engineered alternative solutions and fire reports, NZS 4512:2021 is likely to start being cited immediately because professional engineers have a duty of care to apply the most up-to-date in know-how and good practice.

For installations using wireless detection, duct smoke detection, broad-coverage visual alerting devices (VADs), or networking, a professional duty of care will require the applicable provisions of NZS 4512:2021 to be followed simply because they provide a benchmark for good practice and the 2010 edition was mostly silent on these subjects.

For existing system upgrades and extensions, the 'deemed to comply' provisions of 1.8.4 will encourage the use (at least in part) of the latest technology, testing, and maintenance requirements.

Accredited inspection bodies are likely to start using the NZS 4512:2021 inspection and reporting protocols, forms/certificates and procedures simply because they reflect the latest in good practice.

For manufacturers: new product design, system upgrades, laboratory appraisals, and Register listings will almost exclusively be to NZS 4512:2021 from now on as the new provisions are at least as onerous as NZS 4512:2010. The 4-year lead-time provisions (deadline 13 May 2025) of NZS 4512:2021 will be implemented, applied (and listed) progressively as products are upgraded or replaced.

GENERAL COMMENTS

NZS 4512:2021 offers very few relaxations compared to NZS 4512:2010, and numerous enhancements, so there ought to be few barriers to early adoption among engineers and BCAs. Objections may possibly come from contractors as they get used to the enhanced installation, labelling, reporting, and documentation requirements...

For information, the key relaxations are: minor changes to alphanumeric displays, use of overseas-certified addressable devices, increases in allowable detection zone size and MCP travel distances. concealed space zoning, and detector coverage in roof spaces <800mm. Changes have also been made to the criteria and thresholds around heat detector substitution for smoke detectors.

Note also that work needs to be done to either the 2010 or 2021 version, not a 'pick and mix' of the two.

CALL FOR NOMINATIONS

PROFESSIONALISM & INNOVATION

This year the FireNZ committee wish to initiate a number of annual awards that become recognised as being representative of the entire fire industry and create a legacy that becomes an aspiration for achievement.

“The fire industry awards represent the best of the fire industry and recognise those that contribute to achieving a safer New Zealand”

We are delighted to announce that nominations are now sought for several awards to be presented at this year’s FireNZ conference and exhibition, 27th – 29th October 2021 being held at the Energy Events Centre, Rotorua. On the following pages a summary of awards, nomination deadlines, and submission requirements are provided.

27-29 OCTOBER 2021

ENERGY EVENTS CENTRE, ROTORUA
NEW ZEALAND

All award nominations can be submitted to info@fpanz.org

Outstanding Engineering Achievement

The FireNZ award aims to recognise contributions made by the candidate to the promotion of the engineering profession. This could be in recognition of:

- Significant contributions to the advancement of the professional recognition of the fire protection engineer.
- A fire design that represents a novel, artistic and imaginative solution to a problem
- A project that has delivered enormous value and impact to either a community, country or organisation
- An outstanding collaboration between an engineering organisation and one or more other organisations, that results in a better project outcome or has a significant positive impact on a workforce, customers or community
- A breathtakingly clever engineering project or product launched or completed in the past two years that has solved an age-old problem or shifted from the 'always done this way' mentality
- An individual or team for inspiring engineering education or a significant initiative. It may include student or peer support, teaching, research or other significant initiatives that result in an enduring positive impact

Lifetime Achievement Award

The Lifetime achievement / outstanding contribution award is a prestigious recognition of life-long contributions to and career achievements in the field of fire safety in New Zealand.

Young Professionals Award

The Young Professionals award is for a young person who has demonstrated outstanding leadership qualities, excellence in their career, academic excellence and/or has provided a contribution to the fire safety community.

Candidates must be within five years from completion of their most recent qualification at the time of nomination or start of employment in the fire industry. The maximum age of the candidate is 35 years at the date of the award.

Competenz Learner of the Year Award

The Competenz Learner of the Year Award celebrates excellence among learners and highlights trades careers in the fire protection industry. The Award acknowledges learners whose skills, drive, commitment and work ethic has helped them to achieve outstanding outcomes. It's open to anyone who has completed a Level 3 or 4 programme through Competenz between 1 January 2020 and 31 May 2021. Entry details will be available shortly and will be advertised through Competenz.

NOMINATION PROCESS

A nomination from any person or organisation within the fire industry will be accepted and membership of the three FireNZ organisations is not required.

Self-nominations are not accepted

FIRENZ AWARDING COMMITTEE

The nominations will be considered and recipients chosen by the FireNZ Awarding Committee which is made up of representatives of the FPA, SFPE and IFE.

The judges decisions are final and no correspondence will be entered into.

PROFESSIONALISM & INNOVATION

27-29 OCTOBER 2021

ENERGY EVENTS CENTRE, ROTORUA

Recruitment service

Let us help you find the right fit for your business.

Advertise your entry-level and apprentice roles with Competenz through our online job board; we have pre-qualified and motivated jobseekers ready to match with your organisation today.

Email our recruitment specialist to discuss your options at recruitmentsolutions@competenz.org.nz

Or visit the online [jobseekers](#) board. 

All fire protection industry qualifications are now free

There has never been a better time to train, or retrain, on-the-job. All fire protection industry qualifications offered by Competenz are free from 01 July 2020 until 31 December 2022 for new and current learners.

There are also government wage subsidies available for employers of apprentices in their first two years of training.

Developed in conjunction with industry experts, our range of fire protection qualifications cover skills in fire detection and alarms, passive fire protection and hand-operated firefighting equipment.

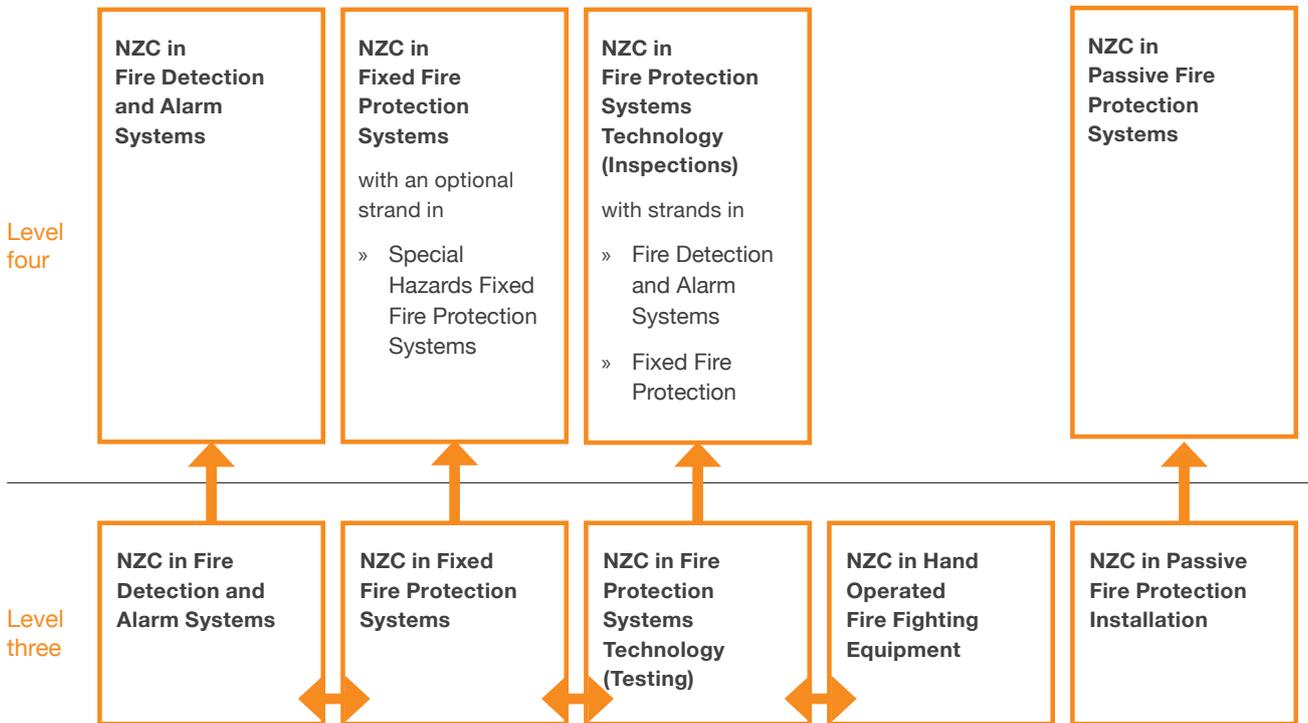

These qualifications take a step-by-step approach. Key benefits of the programmes are:

- » A combination of practical and theory to develop both knowledge and skills
- » Interactive learning available online 24/7
- » Covers critical health and safety aspects of your work
- » Competenz training advisor visits to support learners through their training
- » Nationally recognised qualifications registered with the New Zealand Qualifications Authority (NZQA).

New Zealand Certificates in fire protection

Competenz has created logical pathways for learners to progress, with five New Zealand Certificates at level 3 and six New Zealand Certificates at level 4.

Training with Competenz

Competenz is the industry training organisation (ITO) for the fire protection industry.

Developing highly skilled employees is critical to staying competitive, productive and safe. To do this Competenz works with industry experts to develop nationally recognised qualifications, mapping the skills needed and registering them with NZQA. Our team also develop training plans to make it easy for you to grow your employee's skills and productivity.

We do this in 37 industries with more than 3,500 businesses, helping over 20,000 people develop their skills on-the-job each year.

To find out more about the fire protection qualifications call our customer services team on 0800 526 1800 or email info@competenz.org.nz.

www.competenz.org.nz

What could you be eligible for as an employer or learner?*

Free
Apprenticeships
and Targeted
Traineeships
(TTAF)

One of the following*

Apprenticeship
Boost

Mana in Mahi
Extension

Regional
Apprenticeship
Fund

Select one from the following:

	Targeted Training and Apprenticeship Fund (TTAF)	Apprenticeship Boost	Mana in Mahi Extension	Regional Apprenticeship Fund
What is it?	Free fees on apprenticeships, plus traineeships in targeted sectors	Wage subsidy	Wage subsidy + additional pastoral care	Wage subsidy + additional business support
How much could an employer get?	<p>All fees that an employer would normally pay to an ITO will now be covered.</p> <p>This includes resources, block courses, night classes, study groups and e-learning fees.</p>	<p>Apprenticeship Boost will be available from August 2020 and runs for 20 months.</p> <p>An apprentice who is in the first year of their apprenticeship will be eligible for \$1,000 per month, and an apprentice in their second year is eligible for \$500 per month for a maximum period of 20 months.</p>	<p>The wage subsidy will be increased – up to \$16,000 for a first year participant. Up to \$8,000 for a second year participant.</p> <p>The fund pays for any training your employee needs before they start.</p> <p>WINZ will also work with your employee to:</p> <ul style="list-style-type: none"> » Set achievable goals » Provide incentive payments to motivate them to meet their goals » Provide support to start their qualification or apprenticeship » Get their feedback on how things are going. 	<p>The initiative allows for up to \$40,000 of support per apprentice.</p> <p>This includes a wage subsidy of up to \$16,000 for the first year of training</p> <p>Up to \$8000 for the second year.</p> <p>It also includes additional funding to help with other business support and pastoral care so the employer and apprentice can successfully maintain the apprenticeship.</p>
What period does it cover?	1 July 2020 to 31 December 2022 (30 months)	From August 2020 to March 2022 (20 months)	From August 2020, programme support will be extended from 12 up to 24 months.	More information to come
What are the employer's/ apprentice's eligibility criteria?	<p>All apprentices are eligible – new and currently enrolled</p> <p>All traineeships in targeted areas are eligible – new and currently enrolled, if they are enrolled in a L3-L7 qualification.</p> <p>This does not currently cover pan-sector skills such as OSH, Sales, Distribution, Leadership, Business Administration.</p> <p>All learners enrolling into a Competenz qualification must meet the entry requirements, with the aim of completing the full qualification, with the full support of their employer.</p>	Employers of first and second year apprentices who are currently in, or newly enrolled in, a Tertiary Education Commission approved New Zealand Apprenticeship or a Managed Apprenticeship	<p>Need to have a Mana in Mahi candidate through Work and Income employed as a first or second year apprentice, who is in a Tertiary Education Commission approved New Zealand Apprenticeship or a Managed Apprenticeship.</p> <p>Otherwise need to employ a new apprentice through the Mana in Mahi scheme.</p>	<p>Need to employ a worker displaced by the effects of COVID-19 as well as be a person of Māori or Pacific descent.</p> <p>More information to come.</p>
What do I do next?	<p>Nothing – Competenz will automatically apply the free fees to invoices for eligible learners, or credit enrolled learners based on their pro-rated fees post 1 July 2020.</p> <p>Any questions, please email freetraining@competenz.org.nz</p>	Apply through WINZ workandincome.govt.nz/work/apprentice-support	Apply through WINZ workandincome.govt.nz/work/apprentice-support	Go to the WINZ website workandincome.govt.nz/work/apprentice-support
