

Commentary

Scott Lawson

Welcome to the May edition of the newsletter

I know it is a cliché, but the year is flying by at such a rate, and I hear this sentiment echoed by the members I speak to. We have been exceptionally busy again this month, and I would like to update you on what we have closed out. First, though, a reminder about the new membership year approaching and some of the finer details around this process.

Membership Year 2018-2019

In the lead-up to the new membership year, I have been dropping in on and calling some members with whom I don't have regular contact, and I will be continuing to do so over the next 6 weeks to touch base with as many of you as possible. I would like to hear your feedback on the association, the progress we are making, and what is important to your business in the coming year.

It is worth pointing out that we are planning to require more documentation around membership and renewal, which will include more checks around insurance cover, health and safety policies, and staff numbers. Along with the standard declaration and code of ethical conduct to which all members are bound, we will be increasing our level of auditing of members around these areas. This has been called for by the wider membership to ensure all members are aware of their obligations and are playing by the rules.

We are also embarking on the process of updating our database and the information we have about our members. Changes in staff numbers will affect your membership tier level, so please notify us ASAP so we can make the necessary corrections before producing the membership certificates. If you have any questions, please contact us on info@fpanz.org.

Passive Equipment Register Launch Event

The passive special interest group (SIG) has been working on the equipment register for some time, and version one is now available to download from the website http://www.fireprotection.org.nz/online-resources/FPA_equipment_registers

CLICK TO VIEW LINK

The launch event will cover five centers; see the details on page 5 of this newsletter. This event will also include the release of the next version of the newsletter and a Q&A session to discuss future developments of this initiative. Spaces will be limited, so registration is essential.

Charitable Trust

Many of you know we have been working on forming a trust separate from FPA NZ for standards development and training. As you read this, the formation of the charitable trust is underway. I am very pleased to announce that the deed has been written and approved by the board, and we are now in the final process of trustee appointment and filing paperwork to activate the trust. I will continue to provide updates on this process as it nears completion. It is another significant project and objective complete for this year.

Fire101

I am also exceptionally proud to announce that we are in the final stages of the process with MIT to be able to run the pilot Fire101 course. Starting in July or August, subject to final sign off, this will be another significant project promised and delivered by the association. I would like to acknowledge the hard work of the training SIG and Trent for getting this project on track. As a group,

we have been working through a steep learning curve to discover what we need to do to make such a project come to fruition. We were faced with aggressive timing to deliver this project and the timing did slip from our original plan however, I am pleased we will still deliver the project in this calendar year

NZS4541 Revision

We have also been successful in getting three FPANZ representatives on the NZS4541 revision project. Now the project working group has been formed, the first kick-off meeting is in the last week of May, and we will provide updates as we can. That we were able to get such solid representation on this group is another positive step for our association. Like many of these things that come up, I insisted we conduct an open and transparent process that enabled all members to participate and vote on who should represent the membership and the respective

SIGs. As always, some were disappointed they didn't get selected, but we need to remember that we gave all parties a fair shot at the process. I thank the members who were part of this process.

In closing this month, I hope these updates give you a taste of some of the significant progress we are making as a unified association. My intention is to be able to deliver on projects and key objects that represent all disciplines of our association. To this end, I think we are even more successful than we had anticipated for this year.

Until next month

Regards,

Scott Lawson

Executive Director, FPANZ

Event Schedule June - August 2018

5th June 2018	Passive Register Launch	Wellington
6th-7th June 2018	Wellington Careers Expo	Wellington
11th June 2018	Passive/Hoffe/Inspectorate/Evacuation SIG Meetings	Auckland

CHARTER UPDATE

Evacuation Consultants SIG Update

Author **Phil Jackson** – Evacuation Consultants SIG Chair

With a little under two month until the revised regulations are released we are receiving an increased number of queries with regard to what these may look like, we expect to hear more at the next SIG meeting.

The Evacuation Consultant steering group has put together a training matrix spanning the range of competencies we are expected to possess. As this develops it is timely that we are writing guidelines describing when and how an evacuation consultant should be engaged into a project.

This month has seen some interesting questions arise; the first was a consultant asking the best practice during trial evacuations when dealing with animals in an office environment, what are your experiences? The second was a query regarding two buildings – both under the same consent, same use, same fire alarm system, and same owner. I was asked why they would need two schemes.

In early May I was invited to observe a ward evacuation exercise at Auckland DHB, there was plenty of realism within the exercise including participants playing the role of patients and visitors in various states of health, attitude

and ability. With a good smoke machine, and a well briefed fire technician behind the scenes the nursing team were kept on their toes. There is also the added value of Massey University providing a technical analysis of the event, I hope to see the team at the next SIG meeting. Well done to all involved, I look forward to seeing more scenario based evacuation drills.

For those of you that use the FENZ online portal keep an eye on their website as they will be updating the documents in the Online Services website as part of the rebranding of all resources.

As usual I look forward to hearing from you with the various topics that arise, our next meeting is on the 11th June, at the Royal New Zealand Yacht Club. You're welcome in person or via skype conferencing.

– **Phil Jackson**
Evacuation Consultants SIG Chair 2017-18

The team at FENZ have asked that we take this opportunity to remind ourselves that the Fire and Emergency New Zealand emblem is protected by legislation with strict criteria about the use of its logo and image. Any person or organisation wishing to use any of this material must have written permission to do so. Permission can be sought from The Corporate Communications Manager, Fire and Emergency New Zealand, National Headquarters, PO Box 2133, Wellington. When using the Fire and Emergency logo it is important that you observe the guidance on how and when to use the Fire and Emergency New Zealand logo. If you do not have permission, you must remove the Fire and Emergency New Zealand emblem/logo/other from any of your documentation.'

Passive Fire Protection SIG Update

- Author **Paul Ryan** - Passive Fire Protection SIG Chair

PASSIVE PRODUCT REGISTER LAUNCH!!

FPANZ are proud and excited to announce the launch of Australasia's first ever independent trade association register of passive fire protection products tested to AS 1530.4-2005/2014 and assessed to AS 4072.1-2005/2014.

This is a passive fire protection mile stone in New Zealand – never has there been a register of product testing information freely available to Architects, Fire Engineers, Council Inspectors, installers and IQP's alike who can check code compliant products are being specified and consented.

The register is open to FPANZ members and Non-Members alike!!

Our vision is for Architects and Fire Engineers to specify "Passive Fire Protection Products supplied and installed as listed in the FPANZ Passive Product Register".

We invite industry to attend our launch seminars in Auckland, Hamilton, Wellington, Christchurch and Dunedin during June where we will present the Register and how it will help raise the life safety bar of passive fire protection in New Zealand.

I assure you - this will be the first seminar you attend where you leave feeling positive about the future of passive fire protection!

We are the voice of industry – but we are also the eyes and ears of industry - this is just the first of a number of initiatives we will be delivering!

- Paul Ryan

Passive Fire Protection SIG Chair 2017-18

http://www.fireprotection.org.nz/online-resources/FPA_equipment_registers

HOFFE SIG Update

- Author **Steve Smith** - HOFFE SIG Chair

As mentioned in the last newsletter the PFOS & PFOA scenarios are still making their presence felt, we have however also received a favourable response when we point out the pro-active steps our Fire Equipment industry both is & has taken to address this issue.

There seems to be an ever-increasing number of websites that are linking to each other, while this is certainly not a new thing it means information has become even more accessible. I was recently going through the Worksafe site & noticed the link to the Fire & Emergency (FENZ) site which includes a helpful guide for both home & business fire protection. Also pleasing was to see that the site encourages people to use NZS4503:2005 as the standard to reference for advice on Hand Operated Fire Fighting Equipment (HOFFE). While the 2005 edition of NZS4503 has

parts that need attention, such as the always controversial phrase "Competent Person", in the main the consensus seems to be that it is still a sound document, that could maybe do with a few amendments.

We look forward to having Todd O'Donoghue from FENZ at our June HOFFE group meeting to enlighten us on the implications of the revision of the Fire Safety & Evacuation Regulations & how they may impact on us all. Those of you who cannot attend in person may wish to utilize the conference option now available through the FPA.

Regards, **Steve Smith**,
HOFFE SIG Chair 2017-18

Passive Fire Protection Equipment Register LAUNCH EVENT

FPANZ are very proud to announce the launch of the first AS 1530.4 / AS 4072.1 register of NZ Building Code compliant passive fire protection products.

We are conducting a series of launch seminars throughout the country

The FPA and Passive Special Interest Group members will discuss how the new register, which is the first of several initiatives, will help raise the life safety bar within the industry!

WHO SHOULD ATTEND?

Architects, Fire Engineers, Technicians, BCA's, IQP's and many other areas of industry involved in passive fire protection will not want to miss this event!

The register is free to view and so is the seminar to attend. The afternoon sessions will take the audience through the initiatives we are delivering to industry and how they will help industry design, consent, install and inspect code compliant passive fire protection systems more effectively.

**FREE
EVENT**

WHERE AND WHEN?

Wellington	Tuesday 5th June Rydges Wellington
Auckland	Wednesday 13th June Venue TBA
Christchurch	Friday 15th June Commodore Hotel
Hamilton	Monday 18th June Venue TBA
Dunedin	Wednesday 20th June Venue TBA

PLEASE RSVP PROMPTLY so we can secure your seat at the seminar closest to you

Keynote Speakers

Dr. David Crowder

Head of Fire Investigation and Expert Witness Services, BRE Group

David has overall responsibility for the fire investigation team as well as expert witness services across all disciplines in the BRE Group of companies.

He specialises in investigating fire development, the performance of fire protection measures and systems during real fire incidents, and the regulatory aspects of performance in these areas. Major fire investigations he has worked on include the Penhallow Hotel fire in Cornwall, the Atherstone-on-Stour warehouse fire, Royal Marsden Hospital, Cutty Sark and the Lakanaal fire in Camberwell.

Research projects include: fire spread in car parks, researching the effectiveness of residential sprinklers, evacuating mobility impaired people from hospitals, developing a fire protection strategy for HMS Victory, developing cost effective water misting systems for use in prison cells and a scoping study on the environmental impact of fires. He holds a PhD in the impact of fire chemistry (flammability and toxicity) in fatal fires, examined via the investigation and reconstruction of real fires.

Arnold Dix

Risk Doctor - Technical / Legal
ALARP

Arnold Dix is a passionate advocate for safety in complex built structures. With an international reputation as a disaster investigator, consultant and advisor - trained as a Lawyer and Scientist - with a professional background spanning Partnerships in some of the world's leading Law firms, a barrister and Visiting Professor of Engineering at Tokyo City University His background and professional focus is rather strange but useful. He serves on two NFPA standards (NFPA 130 and 502) at the invitation of the US for nearly 20 years, sits on the Executive of the International Tunnelling Association (UN affiliate), is a registered British Investigator, and founded the ALARP group of companies.

Niall Rowan

Chief Executive Officer, ASFP

Niall started working in fire in 1979 graduating to managing Warringtonfire's (Exova) test laboratory operations. He drafted the first twelve fire resistance test methods for CEN in the 1990s and from 2007 to 2009 he was President of EGOLF, the European organisation of fire testing laboratories and certification bodies.

In 2009 Niall became the ASFP's Technical Officer, responsible for the Association's technical output, including the recently revised Yellow, Red, and Blue Books, the ASFP Guide to Passive Fire Protection for Fire Risk Assessors and many other publications.

Niall took on the role of Chief Operations Officer at the ASFP at the start of 2017 providing leadership and direction to the ASFP's aims to ensure professionalism in the design, development, specification, installation and maintenance of Passive Fire Protection.

In early 2018 Niall became the ASFP's Chief Executive Officer where he continues to work with government, agencies and other stakeholders. He currently spends much of his time involved with fallout from the horrific Grenfell Tower fire and sits on the Building Regulations Advisory Committee which is revising the statutory guidance to the Building Regulations in the wake of the tragedy.

Sean Decrane

Industry Relations, Building & Life Safety Technologies, UL LLC

Sean DeCrane retired as a 25+ year veteran of the Cleveland Division of Fire. He rose through the ranks and serving in various roles including the Director of Training and Acting Chief of Operations. He retired as a Battalion Chief covering Cleveland's Westside

Sean has been very involved in the research at Underwriters Laboratories and the National Institute of Standards and Technology. He serves on the UL Fire Council, is a member of the UL Fire Fighter Safety Research Institute's Advisory Board and is currently on a number of technical panels for research and standards.

Chief DeCrane also represented the International Association of Fire Fighters in the International Code Council process and has served on the 2009, 2012, 2105 and 2018 Fire Code Developing Committee and as Chair for 2015 and 2018. Sean served on the NFPA 1 Technical Advisory Panel, NFPA Research Foundation on Tall Wood Buildings and is serving as the Chair of the fire Test Work Group for the ICC Tall Wood Building Ad Hoc Committee.

Sean has been awarded the 2015 UL Council Member's Achievement Award, 2014 Fire Equipment Manufacturer's Fire Safety Advocate of the Year Award, the 2013 International Association of Fire Chiefs Life Safety Award and the 2012 ICC-IAFC Life Safety Advocate Award. Sean has delivered a number of keynote addresses including the 2015 Fire Department Instructor's Conference. Currently Sean has been appointed as the UL Manager for Industry Groups and association and Professional Organizations.

Jonathan Barnett

Technical Director, RED Fire Engineers, Australia

Jonathan has over 40 years' experience in fire safety engineering. Previously a professor of fire engineering and mechanical engineering at WPI in the US, Jonathan has researched topics such as computer modelling of fire, structural fire protection and the development of tests for firefighting personal protective equipment. Today he is the Technical Director for RED Fire Engineers in Australia.

As an expert witness, Jonathan has testified on fire events throughout the world. In 2001

Jonathan was a core team member for the Building Performance Study that investigated the events of 9/11.

Currently, Jonathan is the national chair of Engineers Australia Society of Fire Safety and a Subject Matter Expert for The Australian Building Codes Board. He is also a founding and life Member of the Society of Fire Protection Engineers (NZ Chapter).

Train on-the-job with free fees

Good news – most Competenz fire protection training programmes are eligible for the government's new tertiary Fees-Free policy.

This means most costs usually paid by employers, apprentices and trainees in the first two years will now be free for some people.

Eligible programmes:

- » New Zealand Certificate in Fire Detection and Alarm Systems Level 4
- » New Zealand Certificate in Fire Protection Systems Technology (Inspections) Level 4
- » New Zealand Certificate in Fire Protection Systems Technology (Testing) Level 3
- » New Zealand Certificate in Fixed Fire Protection Systems Level 3 and Level 4
- » New Zealand Certificate in Passive Fire Protection Systems Level 4

Find out if your people are eligible and enrol now. Quote FIRE18 when you talk to us.
