

## Commentary

Scott Lawson

### Welcome to the September edition of the FPANZ newsletter...

As I pen this update, we are already in Mt Maunganui setting up for FireNZ 2018. This event is shaping up to be great, but more on that later.

### Passive SIG Update

I normally leave the updates for the special interest groups (SIGs) to the respective chairs, but I thought it timely to present a slightly different viewpoint. The passive SIG is the largest growing sector of FPANZ and has been for the past year and a half. This is due to the significant amount of worthwhile work being done by SIG members and coordinated via the SIG chair. It is exciting to watch the group go from strength to strength, and it is always working on new ideas and projects.

The Passive Product Register has been such a good news story; the uptake and feedback on it has been primarily constructive. It is encouraging that most people can see the reasons why FPANZ and the passive SIG put the register in place. As with anything, a small fraction of naysayers struggle with change or positive progress. However, those who seek to discredit the good work of the passive SIG are doing so at a cost to their own reputation, and that has become evident to the vast majority of people seeking positive change in the passive

sector. More companies will soon be listed in the register, and the number of enquiries we are receiving about listing is increasing every week. The passive SIG works on a democratic basis and, despite what some will have you believe, all our members are welcome to contribute and be part of the change.

Next time you hear anything negative about what FPANZ, the Passive SIG or even its chairperson are working on, take a moment to consider the speaker's motives or what personal interests might be behind such comments. It saddens me to say it, but some in the passive sector have a personal or financial incentive to see the status quo prevail. Unfortunately for them, FPANZ, via its 65+ passive members, will continue down the path of beneficial change. I encourage you to be part of that process. To the new and existing members and suppliers who have listed in the register, I thank you for the really forward-looking changes you are helping FPANZ make to the passive sector of our industry.

### FireNZ 2018

As I mentioned earlier, arrangements for FireNZ 2018 are in full swing, and delegate numbers are well above initial expectations. We have a cracker line-up of speakers this year, which is evident in the registrations we are seeing. Just two days out from the start of FireNZ, we are still receiving last-minute registrations. The gala dinner will be the largest ever for FireNZ, with 260 people booked, which smashes the previous record of 230. As you read this, FireNZ is likely well underway or just drawing to a close, so I will update you further next month on how it went.

### Fire Protection Charitable Trust

I am so proud to have seen the formation of the new trust for our industry, as it will be a lasting legacy. This trust has two main goals; as I have alluded to previously, they are to continue developing Fire Standards and to work with FPANZ on industry training. I am pleased to announce the inaugural meeting will take place on Wednesday 3 October. The newly appointed trustees are David Prosser, Chris Mak, Nicky Marshal, and Mitchel Brown. We will provide further updates after their first meeting.

In closing, I hope to see many of you at FireNZ, we will be updating you on the popular "Get it Right" industry training we will be delivering before the end of the year. Until then, keep well and enjoy the rest of this month's newsletter.

Regards, **Scott Lawson**  
Executive Director, FPANZ

## Passive Fire Protection SIG Update

- Author **Paul Ryan** - Passive Fire Protection SIG Chair

This month we have our annual conference (September 26th – 28th) in Mount Maunganui – this event seems to get bigger and better each year and with our first passive international speaker coming across from the UK – we have lots to look forward to at the event.

As many will know, Auckland Council Passive Position Statement version 2 was issued – a huge step forward in laying a smoother pathway to passive compliance.

There are always the complainers, but the justification is very simple. It's been historically well publicised that the passive industry was in a mess and in the last twelve to eighteen months there is absolutely no doubt things have improved dramatically. The effect of initiatives such as the Auckland Councils approach to passive, the FPA register, training and technical position statements is all helping to raise the industry bar.

To anyone who is still not convinced things are improving, quite simply – stop grumbling. Put ideas forward, do something about it, less chat – more action. It's easy to

complain, moan and get personal. Step forward with ideas – we at the Passive SIG will always listen to a better idea we haven't thought of!

As many will know the FPA is made up of hundreds of members – the Passive SIG is made up of some 62 members. It's impossible to get initiatives through the system without collective agreement. All I do as the SIG Chair is present the ideas put to me by individual members!

What we don't want is to step backwards. We know improvement won't suit all as some have been historically employed to provide the guidance we are introducing through initiatives. Industry needs to raise the bar Nationally and that's happening through the good and bold work being done – no doubt about it!

- Paul Ryan

Passive Fire Protection SIG Chair 2017-18

# FPANZ / SFPE One-Day Seminar

**Wednesday 26th September 2018**

## The Fire Engineering Design & Construction Cycle

PROGRAMME	
9.20 - 9.30	Welcome
9.30 - 10.15	<b>FEB and Alternative Solutions</b> (45 min) Keryn Goble (FEB), Daryn Glasgow (Alt Solns)
10.15 - 10.45	<b>Morning tea</b>
10.45 - 11.45	<b>Passive Fire</b> (60 min) FPA led – Paul Ryan
11.45 - 12.15	<b>Fire Protection</b> (30 min) FPA led - TBA
12.15 - 1.15	<b>Lunch</b>
1.15 - 1.45	<b>Evacuation Schemes</b> (30 min) FPA led – Phil Jackson
1.45 - 2.45	<b>Design Coordination and Construction Monitoring</b> (60 min) M James (Des Coord), Greg North (Const mon)
2.45 - 3.15	<b>Afternoon tea</b>
3.15 - 3.45	<b>Cladding</b> (30 min) - TBA
4.00 - 5.30	<b>SFPE AGM</b>

### HOFFE SIG Update - Author **Steve Smith** - HOFFE SIG Chair

The release of the new Hazardous Substances Regulations earlier this year places increased importance on documents like our fire extinguisher register which help authenticate that the products shown have been through the correct procedures.

It is interesting that we still come across fire extinguishers that do not comply. I was at another fire equipment business chatting to them when they talked about some fire extinguishers they had received which had no Fire Extinguisher Registration Numbers (FERN) on them. They wanted to know where to find the FERN number requirement in writing. Thankfully the new Hazardous Substances Regulations 2017 have only recently come into effect so I was able to point them to the reference in section 15.40 (3) where it says "A PCBU who manufactures, imports or supplies a low-pressure fire extinguisher must ensure that it is marked with a Fire Extinguisher Registration Number issued by a product certification body."

Having an easily accessible listing of products that have been through the required processes has a value and is one of the drivers behind the FPA's product registers. In order for products to appear on the FPA Fire Equipment Product Register the requirement for compliance certificates and other documentation has already been dealt with, so effectively a lot of the items you may otherwise spend time checking for are already taken care of at no cost to you.

Regards, **Steve Smith**,  
HOFFE SIG Chair 2017-18

### Evacuation Consultants SIG Update

Author **Phil Jackson** - Evacuation Consultants SIG Chair

FireNZ is just around the corner, no doubt there will be several conversations about 'the new regs'. I am looking forward to the presentation from FENZ around this. We expect the workshop that is being held in mid-September prior to provide an opportunity to work through some of the issues that we have all been facing.

The Fire Information Unit continues to process high volumes of scheme, and as you may be aware now process all of the trial evacuation reports. It is important to meet the criteria of the new reporting and also to carry out maintenance in line with the existing scheme.

We have received a few enquiries from guest speakers to attend our SIG meetings, you will see some of those faces in the New Year.

As usual please feel free to email your enquires though to [evac@fpanz.org](mailto:evac@fpanz.org).

- **Phil Jackson**  
Evacuation Consultants SIG Chair 2017-18

### Event Schedule August - October 2018

26-28 September 2018	<b>FireNZ Conference &amp; Exhibition</b>	Mt. Maunganui
3rd October 2018	<b>Board/Council Meetings</b>	
16th October 2018	<b>Get it Right Training Seminar</b>	Auckland
17th October 2018	<b>Get it Right Training Seminar</b>	Wellington
18th October 2018	<b>Get it Right Training Seminar</b>	Christchurch

## Amendment to the Sprinkler Standard, NZS 4541

Author **Chris Mak** - Chair, P4541 Committee

21 September 2018

The committee revising NZS 4541 has had three meetings to date. This is an update of progress to date, which is intended to be circulated to the committee members, who, in turn, are encouraged to update their nominating organisation on the progress of this project.

It needs to be noted that committee deliberations are confidential. This is to ensure, among other things, that committee members are not subjected to undue pressure and that assumptions are not made by members of the public as to what may be published.

Nominating organisations are also encouraged to feed back to their committee member(s) on any changes they may desire. While the proposal to review "big ticket" items is cast in stone, there is still time to review any potential minor changes.

The project is on program to be released for public comment in April, with publication due in August next year.

To date, the following major changes are envisaged:

- 1) We will be recommending that the seismic design requirements be aligned with those of NZS 1170.5. NZS 4541 currently allows a default seismic design acceleration of 1.0 g, as against NZS 1170.5's maximum acceleration for 3.5 g for some buildings. The details will also change. For example, the adequacy of 150 mm rods to act as a brace for all pipe sizes is being reviewed.
- 2) The requirements for superior water supplies is being reviewed and it will be recommended that this be aligned to the building's importance level, and height. It is not clear yet, whether we will be looking at the building's floor area or potential occupant loads.

- 3) Following a review of some high-rise building fires (including the Lacrosse fire in Melbourne), we are preparing a proposal to combine the sprinkler and hydrant risers for tall buildings. We envisage that this will improve reliability, while remaining cost neutral, or even reducing the costs of active building fire protection.
- 4) We are preparing a proposal on how to adequately protect car stacker systems. The Acceptable Solutions require that car stackers be sprinkler protected, but the current standard does not provide adequate guidance on how to design such protection.
- 5) Part 9 (Extra High Hazard) is being reviewed and updated. It is probable that the design requirements for special commodities will be removed, requiring design approaches to be based on the latest edition of overseas standards and design guides. Part of this review will include a review of ordinary hazard design approaches for taller buildings.
- 6) The need to provide hand operated firefighting equipment to the building, as part of sprinkler compliance is being reviewed.
- 7) There are numerous minor changes proposed, which are aimed at increasing reliability, reducing cost, or increasing the buildability of a sprinkler system.

Standards New Zealand is not in a position to provide the details of the changes, as the revision is not ready for public comment. It is important to remember that any changes cannot be confirmed until after the public comments are reviewed and the final draft is presented to the Standards Approval Board and approved.

### Sprinkler Contractor Certification Process Update.

Please note that all application for Sprinkler contractor certification and renewals must be completed on the new forms. There are several changes in the listing orders and system types so please ensure you use these new forms and check you are applying for the correct listings. The new application & renewal pack can be downloaded from <http://www.fireprotection.org.nz/online-resources/aon-technical-notes>

If you have any question please email [NZ.SSC@Aon.com](mailto:NZ.SSC@Aon.com) or [fpa@fpanz.org](mailto:fpa@fpanz.org)

## Keynote Speakers

### Dr. David Crowder

Head of Fire Investigation and Expert Witness Services, BRE Group

David has overall responsibility for the fire investigation team as well as expert witness services across all disciplines in the BRE Group of companies.

He specialises in investigating fire development, the performance of fire protection measures and systems during real fire incidents, and the regulatory aspects of performance in these areas. Major fire investigations he has worked on include the Penhallow Hotel fire in Cornwall, the Atherstone-on-Stour warehouse fire, Royal Marsden Hospital, Cutty Sark and the Lakanaal fire in Camberwell.

Research projects include: fire spread in car parks, researching the effectiveness of residential sprinklers, evacuating mobility impaired people from hospitals, developing a fire protection strategy for HMS Victory, developing cost effective water misting systems for use in prison cells and a scoping study on the environmental impact of fires. He holds a PhD in the impact of fire chemistry (flammability and toxicity) in fatal fires, examined via the investigation and reconstruction of real fires.

### Arnold Dix

Risk Doctor - Technical / Legal  
ALARP

Arnold Dix is a passionate advocate for safety in complex built structures. With an international reputation as a disaster investigator, consultant and advisor - trained as a Lawyer and Scientist - with a professional background spanning Partnerships in some of the world's leading Law firms, a barrister and Visiting Professor of Engineering at Tokyo City University His background and professional focus is rather strange but useful. He serves on two NFPA standards (NFPA 130 and 502) at the invitation of the US for nearly 20 years, sits on the Executive of the International Tunnelling Association (UN affiliate), is a registered British Investigator, and founded the ALARP group of companies.

### Niall Rowan

Chief Executive Officer, ASFP

Niall started working in fire in 1979 graduating to managing Warringtonfire's (Exova) test laboratory operations. He drafted the first twelve fire resistance test methods for CEN in the 1990s and from 2007 to 2009 he was President of EGOLF, the European organisation of fire testing laboratories and certification bodies.

In 2009 Niall became the ASFP's Technical Officer, responsible for the Association's technical output, including the recently revised Yellow, Red, and Blue Books, the ASFP Guide to Passive Fire Protection for Fire Risk Assessors and many other publications.

Niall took on the role of Chief Operations Officer at the ASFP at the start of 2017 providing leadership and direction to the ASFP's aims to ensure professionalism in the design, development, specification, installation and maintenance of Passive Fire Protection.

In early 2018 Niall became the ASFP's Chief Executive Officer where he continues to work with government, agencies and other stakeholders. He currently spends much of his time involved with fallout from the horrific Grenfell Tower fire and sits on the Building Regulations Advisory Committee which is revising the statutory guidance to the Building Regulations in the wake of the tragedy.

### Sean Decrane

Industry Relations, Building & Life Safety Technologies, UL LLC

Sean DeCrane retired as a 25+ year veteran of the Cleveland Division of Fire. He rose through the ranks and serving in various roles including the Director of Training and Acting Chief of Operations. He retired as a Battalion Chief covering Cleveland's Westside

Sean has been very involved in the research at Underwriters Laboratories and the National Institute of Standards and Technology. He serves on the UL Fire Council, is a member of the UL Fire Fighter Safety Research Institute's Advisory Board and is currently on a number of technical panels for research and standards.

Chief DeCrane also represented the International Association of Fire Fighters in the International Code Council process and has served on the 2009, 2012, 2105 and 2018 Fire Code Developing Committee and as Chair for 2015 and 2018. Sean served on the NFPA 1 Technical Advisory Panel, NFPA Research Foundation on Tall Wood Buildings and is serving as the Chair of the fire Test Work Group for the ICC Tall Wood Building Ad Hoc Committee.

Sean has been awarded the 2015 UL Council Member's Achievement Award, 2014 Fire Equipment Manufacturer's Fire Safety Advocate of the Year Award, the 2013 International Association of Fire Chiefs Life Safety Award and the 2012 ICC-IAFC Life Safety Advocate Award. Sean has delivered a number of keynote addresses including the 2015 Fire Department Instructor's Conference. Currently Sean has been appointed as the UL Manager for Industry Groups and association and Professional Organizations.

### Jonathan Barnett

Technical Director, RED Fire Engineers, Australia

Jonathan has over 40 years' experience in fire safety engineering. Previously a professor of fire engineering and mechanical engineering at WPI in the US, Jonathan has researched topics such as computer modelling of fire, structural fire protection and the development of tests for firefighting personal protective equipment. Today he is the Technical Director for RED Fire Engineers in Australia.

As an expert witness, Jonathan has testified on fire events throughout the world. In 2001

Jonathan was a core team member for the Building Performance Study that investigated the events of 9/11.

Currently, Jonathan is the national chair of Engineers Australia Society of Fire Safety and a Subject Matter Expert for The Australian Building Codes Board. He is also a founding and life Member of the Society of Fire Protection Engineers (NZ Chapter).

## FPANZ Team-Up Calendar

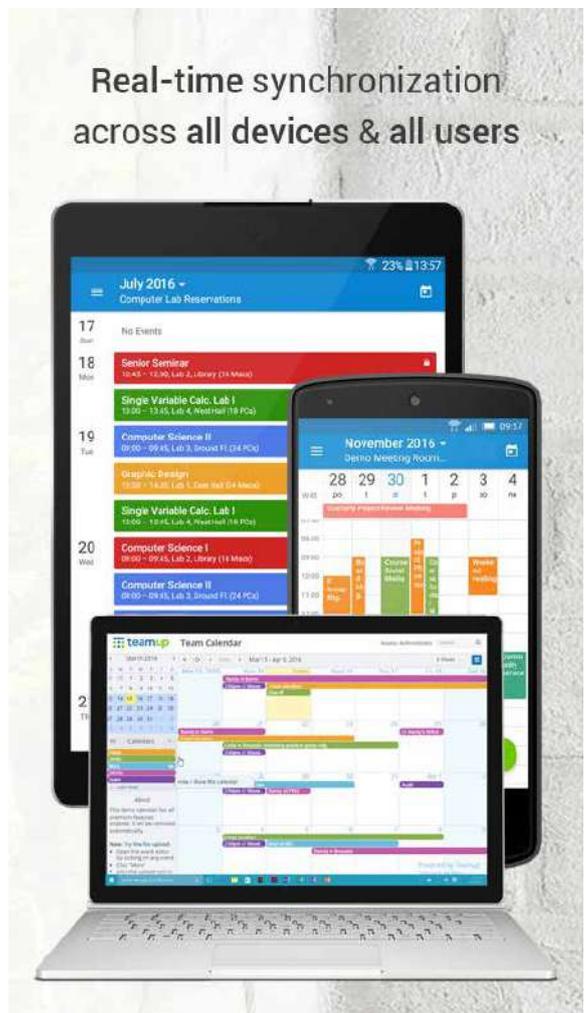

We now have a great online calendar system for keeping an eye on events that are relevant to our industry and FPANZ. This can be accessed a number of ways, from our website, or from the link below, or you can even subscribe to the ical links below and your own calendar will be updated with the events and changes if you subscribe to them. Presently we have four calendars the web address to view them online is:

## FPANZ Council for 2017-18

Executive Director:	Scott Lawson
President:	Keith Blind
Vice President:	Chris Mak

### ELECTED MEMBERS REPRESENTATIVES:

Bryce Donaldson	Argus
David Prosser	Lifetime Member
Jake Symes	Hilti
George McGoram	Fire Systems Maintenance
Nicky Marshall	Protech Design
Kris Tocker	Ultra Fire

### CHAIRS, SPECIAL INTEREST GROUPS:

Paul Ryan	Passive Fire Protection SIG Chair
Kiran Soma	Contractors SIG Chair
Phil Jackson	Evacuation Consultants SIG Chair
Steve Smith	HOFFE SIG Chair
Jason Godsmark	Inspectorate SIG Chair
Trent Fearnley	Training SIG Chair

### ASSOCIATED INDUSTRY GROUP REPRESENTATIVES:

Samantha McNaughton	Competenz
Trent Fearnley	Institute of Fire Engineers NZ Branch
Rob Saunders	Fire and Emergency New Zealand
Michael James	Society of Fire Protection Engineers (NZ Chapter)
Rob Fenton	New Zealand Fire Equipment Manufacturers Association

### BOARD MEMBERS:

President:	Keith Blind
Vice President:	Chris Mak
Independent Treasurer:	TBA
Appointments:	Rob Fenton Chris Orr David Prosser Paul Ryan
