

NOTE COMPLETION OF THIS FORM

This **SPRINKLER CONTRACTOR CERTIFICATION FORM 7** is to be completed and signed by the Sprinkler Contractor.

Please Note

- It is essential you complete this application form electronically.** Data extraction programming is used, hence handwritten notes, scanned documents and/or jpgs only hampers the process.
- Ensure that all relevant sections are completed and that all requested information and attachments are provided.
- Attach additional sheets and certificates as necessary.

This application form is for use by new contractors seeking initial listing and for listed contractors applying for biennial relisting. The listing application will be assessed by a panel with representatives from SSC's. This application will be reviewed by the SSC and/or its nominated agent.

When applying for relisting and there is no change in the scope of work that the contractor intends to carry out, the relisting application shall: *Actioned*

1	Complete the check list and all required sections of the application	1
2	Document any changes in key personnel identified in the previous listing application	2
3	Provide an abridged CV, along with a continuing education activity log for all nominated key personnel	3
4	Document any changes in changes of locations and related administrative details	4
5	Provide activity logs for work undertaken since the previous listing application.	5

When completed please email all applications to: fpanz@fireprotection.org.nz ATTN: Executive Director.

Initial Listing

Applications for initial listing and for extensions to scope will require sufficient evidence of competency for each element within each new scope of listing. For new listings, a face to face interview will be required, and if considered necessary, on-site assessments. Interviews or assessments may be necessary for extensions to scope on an as required basis, as determined by the listing panel. In such cases, the disbursements involved in arranging such interviews or assessments will be invoiced in addition to the standard listing fee.

Provisional Listing

Provisional listing will provide a contractor the ability to gain and demonstrate competency in a field that they have not been previously approved to operate in, where ISO Quality Accreditation is being processed, or where an extension to scope is outside their current ISO Quality Accreditation. Indicate a request for provisional listing with each relevant scope of work. Provisional listing should only be requested if there is an intention to work in this area in the foreseeable future. Provisional listing can be given later to extend a scope of work in the future when the need arises, and where a contractor can demonstrate adequate expertise for the work involved.
