

FireNZ 2023 Call for Papers

If you are involved in the fire industry and would like to present, we encourage you to submit an abstract and get involved in your industry conference

As both a Conference and Tradeshow, Fire NZ continues to be the largest and most influential fire protection event in New Zealand.

The Fire NZ program provides opportunities for local and international industry participants to report on the most recent developments and research achievements in all aspects of the industry.

We are calling for papers from engineers, contractors, designers, academia, manufacturers and industry experts. If you are in the industry and feel you can present an interesting and well received topic, we encourage you to submit an abstract and get involved in your industry conference.

FireNZ is now seeking abstract submissions from authors wishing to present papers at Fire NZ 2023 October 3rd - 5th Auckland, New Zealand.

SPEAKER BENEFITS

All main stream speakers will receive free one-day registration.

ABSTRACTS

The 2023 Conference Program Committee will review all abstracts and make final speaker selections based on level of innovation, quality, relevance, focus, practical application, and timeliness.

Abstracts must be submitted by 26th May 2023 although early submission is encouraged.

3-5 OCTOBER 2023

SHED 10, QUEENS WHARF, AUCKLAND

If you would like to speak, present or participate in FireNZ 2023, please contact info@fpanz.org

PRESENTATION ABSTRACT GUIDE

Thank you for your interest and support!

FireNZ 2023 will be held in Auckland, New Zealand 3rd – 5th October 2023. The conference is once again presented by the Fire Protection Association of New Zealand, the Society of Fire Protection Engineers NZ Chapter, and the Institution of Fire Engineers New Zealand Branch.

Our annual FireNZ national conference has established a reputation as the premier fire industry event for keeping abreast of advancements in all aspects of fire safety in New Zealand.

The conference is an opportunity to look at advancements and developments in the field of fire safety, and promotion of the core values of professionalism in the industry.

CONFERENCE & EXHIBITION
WWW.FIRENZ.ORG

AUDIENCE

The participants at this conference will be:

- Professionals involved in fire safety engineering, design and review of fire safety design, regulations development and enforcement, standards development, and developers of engineering design methods;
- Fire safety contractors involved in testing, installation, and inspection of fire safety systems and evacuation strategies;
- Firefighters and other Fire and Emergency staff.

SUBMISSION REQUIREMENTS

Those wishing to present should submit a ~250 word abstract for selection by 26th May 2023 using the submission form on page 3. This will be published in the conference brochure.

The 2023 Conference Program Committee will review all abstracts and make final speaker selections based on level of innovation, quality, focus, practical application, and timeliness.

If accepted, an invitation to present at the conference will be sent by 23rd June 2023.

SPEAKER REQUIREMENTS

- All presentations must be submitted by 12th August 2023, presentations not submitted may result in the presenter being withdrawn.
- Speakers to advise if their presentation is to be made available following the conference to paying delegates of the conference.
- Speakers and presentations may be photographed and or videoed and all media will be the property of FireNZ.
- By submitting this application We/I agree to the terms outlined in this document

PRESENTATION

- In order to retain your assigned presentation time slot, you must submit your final presentation slides by the presentation deadline 12th August 2023 for review by the FireNZ committee. Failing to send your presentation in on time for review could see you forfeit your allocated time slot to another presenter.
- The FireNZ conference PowerPoint slide template will be provided and must be used to ensure 16:9 display format and font compatibility.
- Speakers will also be supplied full technical requirements for presentation slides, including (but not limited to) maximum words per slide, size and type of fonts. These requirements are to ensure that presentations display correctly, and conference delegates get a good viewing experience. Unfortunately, some previous presentations have proved difficult to view or have required last minute changes to fit the technical display requirements.
- The committee reserves the right to modify or replace presentations that do not meet the requirements outlined in this section.
