

WELCOME

Welcome to June's newsletter.

Unfortunately, this update isn't as positive as some other updates. Like many businesses, 30 June is the end of our financial year. We have discussed the outlook for the next financial year with many of our members, so it won't come as a surprise that it is a bit reserved for the next 6–12 months. We have listened to feedback from members and made some changes to our plans to reflect the fact that we are still technically in a recession. As a relatively small member organisation, it is important to be as reactive as possible, to ensure we structure our organisation to our members' needs, and to be mindful of financial implications during reduced confidence in the economic environment. You can expect updates about how we are modifying our plans and prioritising the work we do on behalf of our members in the next financial year.

Scott Lawson

Membership

As mentioned, our new financial year starts on 1 July 2024. At this point, we would usually consider increasing our membership fees; however, I am very pleased to announce that – once again – the board has agreed that we will not increase fees this year. We can maintain all our core functions within the current environment, and we felt that it was better to not add to members' costs. This means that the cost of membership has not increased since 2014 and in fact – accounting for inflation – has modestly decreased each year since 2014. This might mean we pause some of our more expensive CAPEX projects, but we will continue to carry out all business-as-usual functions with no impact for members.

Introductory Industry Courses (Fire101, Fire102, Fire103)

As mentioned previously, we have been planning some entry-level courses for new industry staff that could be delivered by FPA NZ in a class environment, by members in their own business, or online. We consider these to be pre-formal qualifications that will lead into the level 3 and 4 qualifications offered by Competenz. These courses are intended to ensure learners have the basic information needed before starting the formal qualifications. This will also link into our push for all members to be doing some form of continuing professional development with their workforce. ▶

COMMENTARY cont.

I am pleased to announce that the alarms working group is progressing well on the Alarm Fire101–103 courses. We have engaged an external consultant to help us gather the information from our subject matter experts and design the course content in a format that works for adult learners. As soon as the alarms content is nearing completion, we will start on content for sprinkler installers. This will be a unique offering for our members, and we will be excited to provide more updates as it progresses.

Passive Technical Manager

Sadly, the bleak financial outlook led us to reassess, restructure, and disestablish the passive/technical training manager role as at the end of this financial year. As with any business, we have an obligation to be mindful of our costs and ongoing financial commitments. The passive training space has proven to be too crowded, and the training was not going to be financially viable in the coming financial year. We are disappointed to lose Loren from the team.

“Get it Right” Seminar – NZS4512: July 2024

Just a reminder: we are running two more of these seminars, on Wednesday 10 July in Tauranga and Thursday 11 July in Auckland. A few limited spaces are left. Don't miss out – we won't be running this seminar again unless we see new demand. NZS4512:2021 is increasingly being cited and called on, so make sure your staff know about the changes, some of which are significant and could cause problems with job completion and certification if the new standard is not followed.

Until next month,

Scott Lawson
Chief Executive Officer, FPANZ

HOFFE SIG Update

› Authors **Steve Smith & Lance Hunt** – HOFFE SIG Chairs

Well, we are halfway through the year and while there's a bit of doom and gloom out there, we are still fighting the good fight and getting the occasional win.

I say this because as you may recall from our article last month Scott Lawson and Pete Gallagher had a successful meeting with the manager of MBIE Consumer Services Division and his compliance team to discuss our group's concerns about non-conforming products and unsubstantiated claims about their fire extinguishers' abilities.

A point that was made clear to our representatives that for any claims to be investigated, **we must provide a case that includes proof that validates our claims.** With that in mind, when you encounter these situations, please gather all the evidence including contact information (yours and your clients), along with photos and details of what was represented, and forward it to the FPA so it can be included as evidence.

Our next HOFFE Group meeting is on the 28th August.

Regards,
Steve Smith & Lance Hunt,
 HOFFE SIG Chair 2023/2024

Essential Advice for Passive Fire Installers: Ensuring Compliance and Safety

As the field of passive fire protection evolves, installers face new challenges and opportunities. The recent FPANZ SIG meeting highlighted crucial advice for passive fire installers to ensure compliance and enhance fire safety standards.

Understanding Compliance in Townhouses

One of the key issues discussed was passive fire protection between townhouse units. Installers often face the dilemma of whether applying fire protection on one side ensures compliance for the adjoining unit. It's crucial to:

- › **Communicate with BCAs:** Always notify the Building Consent Authority (BCA) about compliance issues and seek guidance on appropriate systems.
- › **Ensure mutual protection:** While protecting one unit, ensure reciprocal protection to prevent potential safety gaps.
- › **Obtain proper consents:** Any changes to fire systems require appropriate consents. In some cases, exemptions might be applicable, but these should be verified with the BCA.

Staying Informed and Involved

To stay ahead in the industry, installers should:

- › **Suggest topics:** Contribute ideas for future projects and topics. Fire Doors, for instance, have been identified as an area of interest.
- › **Follow guidelines:** Keep up with the latest updates in the Code of Practice for Passive Firestopping, especially regarding existing buildings.
- › **Attend workshops and training:** Participate in workshops and training sessions to stay updated on best practices and new technologies.

Commitment to Safety

The FPANZ SIG is dedicated to advancing fire safety standards. By following these guidelines and participating in ongoing initiatives, passive fire installers can ensure compliance, enhance safety, and contribute to the overall resilience of buildings in New Zealand.

Kind Regards,

Ben Bakker

Passive Fire Protection SIG Chair 2023/2024

FIRE DETECTION AND ALARM SYSTEMS IN BUILDINGS NZS 4512:2021 Get it Right Seminar

FIRE DETECTION AND ALARM SYSTEMS IN BUILDINGS NZS 4512:2021 SEMINAR

This seminar series is driven by the ongoing changes we face as an industry and the importance of selecting the right products and installing and maintaining them correctly to meet performance, design, and standards requirements.

FPANZ is hosting a series of three-quarter day workshops throughout the country to continue its plan of education and information to ensure that the industry is continuing to get the latest information and support.

This seminar is a refresher/repeat of the seminars presented in 2021 when the new Standard was released. Please note that NZS 4512:2021 also now cited by MBIE in the Acceptable Solutions.

NZS 4512:2021 is a substantial revision of the 2010 edition. While the basics remain, technology and practice have marched on. Previous requirements have changed and substantial new provisions have been added. To ensure ongoing competence, it is critical for all industry participants to get up to speed with the changes.

Key changes which will be covered include:

- › Wireless Detection Technologies - new
- › Visual Alerting Devices (VADs) - new
- › Networked systems - new
- › Power Supplies - enhanced requirements
- › Changes to Zones, Sectors, and MCP locations
- › New Commissioning, Inspection, and Certification procedures & forms
- › Expanded Documentation and Reporting requirements
- › Changes to Monthly and Annual Testing
- › Updated Isolation procedures and forms
- › Seismic resistance requirements
- › Additional 'Type 5' system requirements
- › New requirements for Labelling and Marking
- › New Installation and Cabling requirements
- › New requirements for Detector installation
- › New equipment functionality and testing requirements

...And a myriad of other small, but significant changes you need to be aware of...

FPANZ is fortunate to have secured key members of the P4512 revision committee to present these seminars, so they come with in-depth familiarity with all the changes.

Time will be allocated to Q&A, so please review the document (available as a free download) beforehand and bring your questions.

AUCKLAND: 11 JULY 2024
RNZ YACHT SQUADRON
8.00am – 2.45pm

TAURANGA: 10 JULY 2024
MERCURY BAYPARK STADIUM
8.00am – 2.45pm

WHO SHOULD ATTEND

The seminars are particularly aimed at those involved in design, manufacture, supply, specification, consenting, installation, inspection, maintenance, and testing of Fire Alarm Systems.

Those who should attend include:

Fire Alarm system engineers, designers, and estimators

Fire Alarm system installation supervisors and charge-hands

Fire Alarm system installers and maintenance technicians

Fire Alarm Installation inspectors

Fire Alarm system surveyors and IQPs

Fire Alarm system component manufacturers and suppliers

Consent and compliance officers

Fire safety officers

INVESTMENT:

- MEMBERS (single) \$300 each* +GST
- MEMBERS (multiple) \$250 each* +GST
- NON-MEMBERS \$400 each +GST

**Available to FPANZ Financial Members who are fully paid-up.*

Catering is provided for this full day seminar consisting of morning tea & lunch.

PRESENTED BY: David Prosser and Jason Godsmark

No Elev8 enrolment fees for ineligible Fees Free learners

Intended programmes:

- » Fire.

What is provided free:

- » Elev8 annual fee only.

What is not included:

- » Canvas online learning fees.

Eligible enrolments:

- » Enrolment date must be before Monday 30 September 2024.

Period of free Elev8 offer:

- » 12 months from enrolment date.

General information:

- » Eligible Elev8 learners returning a 'maybe' or 'no' for Fees Free will be credited for the Elev8 fee covering the agreed period
- » Fees Free eligibility returning a 'maybe' will require a completion of a statutory declaration.

For further information, please [contact us](#).

Use of FPANZ Logo

Recently we have noticed that some of our FPANZ members (and even non-members) have been incorrectly using our FPA trademarked corporate logo.

This logo is not to be used by any entity without the written permission of the Chief Executive Officer and/or FPANZ Board. The purpose of this logo is to provide a corporate identity for the Association in its general course of business activities.

The FPANZ membership tier status logos shown below are licensed to be used by any financial member of FPANZ who has signed up to the FPANZ Code of Ethical Conduct and is fully compliant with all its requirements.

For a list of logo guidelines please visit our website <https://www.fpanz.org/about/logo-guidelines>

If you are using an incorrect logo and would like to request a membership logo for use, please email info@fpanz.org

If you are not an FPANZ member and have not gained written permission to use the FPA logo, then we ask that you remove it from your website, email signature or anywhere else that it is currently being used.
